The deposit notes are not insured under the Canada Deposit Insurance Corporation Act. The Notes are not conventional notes or debt securities. For the various risks associated with such an investment, please see the Risk Factors section of the Information Statement.

INVESTMENT HIGHLIGHTS

- 6 year term.
- Variable Return, if any, is linked to the price performance of a notional basket of equally weighted Canadian Commodity Shares where each underlying Share in the Basket is capped at 70%, and subject to a floor of -100%. The maximum return will be earned if all Shares rise by 70% or more from the Initial Valuation Date to the Final Valuation Date. This is equivalent to a 9.25% compounded annual return.
- The maximum Weighted Component Change for each underlying Share is 7.00% (70% Cap multiplied by 1/10 weighting). Notes do not represent an interest in the securities of the companies that comprise the Basket and holders will have no right or entitlement to such securities including the dividends and other distributions paid on these securities. The indicative dividend yield on the Basket as of March 10, 2021 was 3.06%, representing an aggregate dividend yield of approximately 19.82% annually compounded over the 6 year term, on the assumption that the dividend yield remains constant. Sufficiently weak performance by some of the Shares may offset the positive performance of the remaining Shares, resulting in no Variable Return being paid at maturity.
- 100% principal protection guaranteed by RBC at maturity. RBC is rated Aa2 by Moody's, AA- by Standard and Poors and AA by DBRS.
- The Notes are tradeable in a daily secondary market, subject to availability, which RBC Capital Markets will use reasonable efforts to provide as outlined in the Information Statement. Proceeds on sale may be less than the \$100 Principal Amount.
- Registered Account Eligible: RRSPs, RDSPs, RESPs, TFSAs and DPSP.

Company Name	Symbol	Company Name	Symbol

SAMPLE CALCULATION OF THE PAYMENT AMOUNT

The examples set out below are included for illustration purposes only. The prices of the Shares included in the Basket used to illustrate the calculation of Variable Return are not estimates or forecasts of the Initial Prices and Final Prices of the Shares on which the calculation of the Percentage Change, and in turn the Variable Return, will depend. Each Share is subject to a maximum appreciation of 70.00% (the “Cap”). Therefore, the maximum Weighted Component Change for each Share is 7.00% (70.00% Cap multiplied by 1/10 weighting). All examples assume that a Noteholder has purchased Notes with an aggregate principal amount of \$10,000 and that no Extraordinary Event has occurred. Capitalized terms which are not otherwise defined herein are defined under “Definitions” in the Information Statement.

Example #1 – Hypothetical calculation of the Payment Amount where Percentage Change is positive and below the Cap. It is assumed that the Initial Price and the Final Price for each Share are as illustrated below (hypothetical). The Payment Amount would be calculated as follows:

Company Name	Symbol	Initial Price	Final Price	Share Price Change	Component Weight	Weighted Component Change
Barrick Gold Corporation	ABX	25.27	25.58	1.22%	10.00%	0.122%
Agnico Eagle Mines Ltd	AEM	72.80	88.00	20.88%	10.00%	2.088%
Canadian Natural Resources Ltd	CNQ	38.59	65.60	70.00%	10.00%	7.000%
Enbridge Inc.	ENB	44.96	65.36	45.38%	10.00%	4.538%
First Quantum Minerals Ltd	FM	26.06	44.30	70.00%	10.00%	7.000%
Nutrien Ltd	NTR	71.36	121.31	70.00%	10.00%	7.000%
Suncor Energy, Inc.	SU	27.63	42.73	54.67%	10.00%	5.467%
Teck Resources Ltd	TECK/B	26.43	42.86	62.17%	10.00%	6.217%
TC Energy Corporation	TRP	57.28	85.63	49.50%	10.00%	4.950%
Wheaton Precious Metals Corp.	WPM	47.37	73.99	56.19%	10.00%	5.619%
Sum of the Weighted Component Changes						50.00%
Percentage Change						50.00%

Percentage Change = 50.00%

Variable Return = \$10,000.00 × 50.00%
= \$5,000.00

Payment Amount = \$10,000.00 +
\$5,000.00 = \$15,000.00

A Percentage Change of 50.00% results in an annually compounded rate of return of 6.99%.

Example #2 – Hypothetical calculation of the Payment Amount where the sum of the Weighted Component Changes is negative and therefore the Percentage Change is 0%. It is assumed that the Initial Price and the Final Price for each Share are as illustrated below (hypothetical). The Payment Amount would be calculated as follows:

Company Name	Symbol	Initial Price	Final Price	Share Price Change	Component Weight	Weighted Component Change
Barrick Gold Corporation	ABX	25.27	35.26	39.55%	10.00%	3.955%
Agnico Eagle Mines Ltd	AEM	72.80	72.69	-0.15%	10.00%	-0.015%
Canadian Natural Resources Ltd	CNQ	38.59	29.41	-23.78%	10.00%	-2.378%
Enbridge Inc.	ENB	44.96	8.85	-80.31%	10.00%	-8.031%
First Quantum Minerals Ltd	FM	26.06	6.40	-75.46%	10.00%	-7.546%
Nutrien Ltd	NTR	71.36	20.64	-71.07%	10.00%	-7.107%
Suncor Energy, Inc.	SU	27.63	6.00	-78.28%	10.00%	-7.828%
Teck Resources Ltd	TECK/B	26.43	3.61	-86.32%	10.00%	-8.632%
TC Energy Corporation	TRP	57.28	23.36	-59.21%	10.00%	-5.921%
Wheaton Precious Metals Corp.	WPM	47.37	16.59	-64.97%	10.00%	-6.497%
Sum of the Weighted Component Changes						-50.00%
Percentage Change						0.00%

As the sum of the Weighted Component Change is -50.00%, the Percentage Change is 0.00%.

Variable Return = \$10,000.00 ×
0.00% = \$0.00

Payment Amount = \$10,000.00 +
\$0.00 = \$10,000.00

A Percentage Change of 0.00% results in an annually compounded rate of return of 0.00%.

Please note that advisors are required to convey to their client at the time a purchase order is taken, whether in person or by telephone, the information contained under Schedule A - Disclosure for Sales in Person or by Telephone.

All capitalized terms unless defined herein, will have the meanings ascribed to them in the Information Statement.

An investment in the Deposit Notes provides opportunities for investment but may pose risks. See further details in the Information Statement. Specific risks include:

- Interest Payable at Maturity – The Principal Amount plus Variable Return (if any) is payable only at maturity and no return may be payable in respect of the Notes. The repayment of a Noteholder's Principal Amount and payment of Variable Return, if any, is subject to the creditworthiness of Royal Bank.
- The Notes may not be suitable for all investors and RBC DS may engage in activities that could adversely impact the Notes.
- Secondary Market Price – The price for the Note in any secondary market will be based on market conditions and could be above or below the \$100 Principal Amount. RBC reserves the right not to make a secondary market.
- Extraordinary Events – The payment of Variable Return could be accelerated or delayed due to the occurrence of certain Extraordinary Events.
- Impact of the cap on return – The return on the Note is limited to 70%, equivalent to a compound annual rate of 9.25%.

The Information Statement in respect of the RBC Principal Protected Canadian Commodity Growth Notes, Series 4, F-Class (the “Information Statement”) and this highlight document do not constitute an offer or invitation by anyone in any jurisdiction in which such offer is not authorized or to any person to whom it is unlawful to make such offer or invitation. The offering and sale of the Notes, described in the Information Statement, may be subject to restrictions within any particular province or territory. The Notes may not be offered or sold in any jurisdiction outside of Canada. Royal Bank and the selling agents require persons into whose possession the Information Statement comes to inform themselves of and observe any and all such restrictions. In particular, the Notes have not been and will not be registered under the United States Securities Act of 1933 and may not be offered or sold within the United States or to, or for the account or benefit of, United States persons. No securities commission or similar authority has in any way passed upon the merits of the Notes and any representation to the contrary may be an offence. This highlight document must be read in conjunction with the Information Statement, which provides additional important disclosures and risk factors in respect of the Notes.
