(b) If the Percentage Change in the price of such Share is equal to or less than zero, the Share Return Percentage will be the actual Percentage Change (which, in such circumstances, will be zero or a negative percentage), provided that if the actual Percentage Change is equal to or less than -10.00%, the Percentage Change for such Share shall be deemed to be -10.00%.

All capitalized terms unless defined herein, will have the meanings ascribed to them in the Information Statement.

- An investment in the Deposit Notes provides opportunities for investment but may pose risks. See further details under "Risk Factors" in the Information Statement, Specific risks include:
- The maximum amount of Variable Interest that a Noteholder could receive over the term of the Notes is \$42.00 per Note, or a variable amount between 0.40% and 6.00% of the Principal Amount in the first to the seventh Annual Periods.
- Noteholders do not have ownership in the Shares and therefore are not entitled to receive dividends or other distributions paid thereon. The dividend yield of the Equity Portfolio was 4.96% as of April 30, 2021 which would equate to 40.34% over the term of the notes assuming dividends remain constant and are not re-invested.
- Secondary Market Price The price for the notes in any secondary market will be based on market conditions and could be above or below the \$100 Principal Amount, subject to an early trading fee of up to 3.00%. RBC reserves the right to not make a secondary market.
- Extraordinary Events
  – The payment of Variable Interest could be accelerated or delayed due to the occurrence of certain Extraordinary Events.
