

This Information Statement does not constitute an offer or invitation by anyone in any jurisdiction in which such offer is not authorized or to any person to whom it is unlawful to make such offer or invitation.

In Canada, the offering and sale of the Notes may be subject to restrictions within any particular province or territory. The Notes may not be offered or sold in any jurisdiction outside of Canada except in circumstances which do not constitute a public offering or distribution under the laws of the jurisdiction where the Notes are to be offered or sold. Royal Bank and the selling agents require persons into whose possession this Information Statement comes to inform themselves of and observe any and all such restrictions. In particular, the Notes have not been and will not be registered under the Securities Act of 1933 (United States) and may not be offered or sold within the United States or to, or for the account or benefit of, United States persons except in certain transactions exempt from the registration requirements of the Securities Act of 1933 (United States). No securities commission or similar authority has in any way passed upon the merits of the Notes and any representation to the contrary may be an offence.

RBC Principal Protected RBC Asset Allocator Risk Control Guaranteed Return LEOS[®] (CAD), Series 3

SUMMARY

The following is a summary of the basic terms of the Royal Bank of Canada deposit notes called “RBC Principal Protected RBC Asset Allocator Risk Control Guaranteed Return LEOS[®] (CAD), Series 3” (individually a “**Note**” and collectively the “**Notes**”). All references to the Notes and to a Note contained in this Information Statement will include the Global Note (as defined herein). Unless otherwise indicated, references to “\$” are to **Canadian dollars**. Capitalized terms which are not otherwise defined herein are defined under “Definitions”. LEOS[®] is a registered trademark of Royal Bank of Canada.

Issuer: Royal Bank of Canada (“**Royal Bank**”, “**we**”, “**our**” or “**us**”). Our head office is located at 200 Bay Street, Toronto, Ontario, M5J 2J5.

Underlying Index: The variable return on the Notes (“**Variable Return**”) will be determined by reference to the RBC Asset Allocator 5% Risk Control Index (the “**Underlying Index**”). The Underlying Index takes a variable exposure to the RBC Asset Allocator Index (the “**Target Index**”) with the aim to achieve an annualized volatility of less than or equal to 5.00% (the “**Volatility Target**”) by dynamically adjusting, on a daily basis, the Underlying Index’s exposure to the Target Index, with the remaining exposure rebalanced into a notional cash component. The Underlying Index’s exposure to the Target Index is calculated based on the ratio of the Volatility Target and the Target Index’s Historical Volatility (as defined below), capped by a maximum leverage of 150% (the “**Maximum Leverage**”). Historical volatility is determined by selecting the greater of either a short-term or a long-term measure of volatility, which are calculated using the Target Index’s historical returns over the preceding 20 days and 60 days, respectively (“**Short-Term Volatility**” and “**Long-Term Volatility**”, respectively, and together, “**Historical Volatility**”). If Historical Volatility decreases and falls below the Volatility Target, the Underlying Index will increase its exposure to the Target Index above 100%, up to the Maximum Leverage, in an attempt to maintain the Volatility Target. If Historical Volatility increases and rises above the Volatility Target, the Underlying Index will decrease its exposure to the Target Index below 100%, in an attempt to maintain the Volatility Target, resulting in an additional notional cash position. Therefore, the Underlying Index’s exposure to the Target Index can be greater than 100% (but not greater than the Maximum Leverage), less than 100% (as low as zero), or equal to 100%. Notwithstanding that the name of the Underlying Index includes the phrase “Risk Control”, the Underlying Index may decrease significantly more or increase significantly less than the Target Index. **For the avoidance of doubt, the return on the Notes is linked to the Underlying Index and is not linked to the Target Index.**

The Target Index is an excess return index that reflects the price changes of the Components (as described below) that comprise the Target Index. The level of the Target Index includes the funding costs associated with the purchase of the Components in the Sub-Indices. The Target Index averages the performance of the 12 Sub-Indices (as defined in “*Summary Information Regarding the Underlying Index and the Target Index*”) and is rebalanced equally between the Sub-Indices once a year. Each Sub-Index is reconstituted in a different calendar month, once a year. At the time of reconstitution in each calendar month, the applicable Sub-Index is reconstituted based on the Asset Allocation Strategy further described in “*Summary Information Regarding the Underlying Index and the Target Index*”. For further details regarding these adjustments and the methodology for the Target Index and its Sub-Indices, refer to the Index Sponsor’s website at www.solactive.com.

The Notes do not represent an interest in the Underlying Index, the Target Index or in the Components and holders will have no right or entitlement to such Components including, without limitation, redemption rights (if any), voting rights or rights to receive dividends or other distributions paid on those Components. The closing level of the Underlying Index on March 30, 2022 was 1,433.864. There is no requirement for Royal Bank to hold any interest in the Underlying Index, the Target Index or the Components. For further information on the Underlying Index, see “*Summary Information Regarding the Underlying Index and the Target Index*”. In addition to the Variable Return, if any, payable on the Notes, the Notes will pay fixed interest payments (“**Fixed Interest**”) that are not contingent on or related to the performance of the Underlying Index, on such dates and equal to such amounts as are specified in this Information Statement.

Index Sponsor:	“ Index Sponsor ” means Solactive AG.
Issue Date:	On or about April 19, 2022
Initial Valuation Date:	March 30, 2022
Final Valuation Date:	March 31, 2025
Maturity Date and Term:	On or about April 3, 2025, resulting in a term to maturity of approximately 3 years. The Principal Amount will only be payable at maturity. For further information, see “ <i>Payments Under the Notes</i> ”.
Fixed Interest Payment Dates:	Fixed Interest on each Note will be paid on or about April 4, 2023, April 3, 2024 and April 3, 2025 (each, a “ Fixed Interest Payment Date ”).
Fixed Interest:	Fixed Interest on the Notes will be payable on each Fixed Interest Payment Date, in arrears, annually ending on a Fixed Interest Payment Date (each, an “ Interest Period ”). Fixed Interest will be payable for each Interest Period at a fixed interest rate of 1.50% of the Principal Amount per Note.
Payment Amount:	The amount payable on each Note upon maturity (the “ Payment Amount ”) will be equal to the sum of (a) the Principal Amount of the Note, plus (b) the Variable Return, if any. The amount and method of determining the Variable Return and the timing of the payment of the Variable Return, if any, may be affected by certain Extraordinary Events. In all cases, the Principal Amount will only be payable at maturity. For further information, see “ <i>Payments Under the Notes</i> ”. The Payment Amount will be paid in addition to the Fixed Interest that is due on the Maturity Date.
Variable Return:	The Variable Return, if any, on each Note upon maturity will be an amount equal to the Principal Amount multiplied by the Percentage Change multiplied by the Participation Rate. The Variable Return, if any, will not be less than zero.
Percentage Change:	The Percentage Change will equal an amount, expressed as a percentage and rounded to three decimal places, determined as follows: $\frac{(\text{Settlement Level} - \text{Base Level})}{\text{Base Level}}$ <p>If this calculation results in a negative number, then the Percentage Change will be deemed to be zero.</p>
Base Level:	Except in circumstances described below under “ <i>Payments Under the Notes – Extraordinary Events</i> ”, the Base Level of the Underlying Index is the official closing level of the Underlying Index, as published by the Index Sponsor, on the Initial Valuation Date, rounded to two decimal places.
Settlement Level:	The Settlement Level of the Underlying Index will be the official closing level (or deemed closing level, as the case may be) of the Underlying Index, as published by the Index Sponsor, on the Final Valuation Date, rounded to two decimal places. If any such day is not an Exchange Day for the Underlying Index, the Final Valuation Date will be the next following Exchange Day. The determination of the Settlement Level may be subject to acceleration or postponement upon the occurrence of certain Extraordinary Events described below under “ <i>Payments Under the Notes – Extraordinary Events</i> ”.
Participation Rate:	The Participation Rate will be equal to 120.00%.
Extraordinary Events:	An Extraordinary Event is an event that could have an impact on our ability to perform our obligations under the Notes or to hedge our position in respect of our obligation to make payments under the Notes. An Extraordinary Event could include, among other things, a suspension or limitation of trading on any Principal Exchange or Related Exchange, or a suspension or limitation of trading of the Components on any Principal Exchange or Related Exchange; any court or governmental order prohibiting us from performing our obligations; or any governmental action that has a material adverse effect on relevant financial markets. An Extraordinary Event may delay the time at which the Percentage Change is determined in respect of the Underlying Index and

delay the time of any related return payment and may allow us the option of crystallizing the amount of return payable and (if positive) paying such amount as a single, one-time final payment of Alternative Variable Return, in which case no further return, other than any remaining Fixed Interest payments, would be payable for or in respect of the remaining term of the Notes. See “*Payments Under the Notes – Extraordinary Events*”.

Eligibility for Investment:

The Notes, if issued on the date of this Information Statement, would be qualified investments for trusts governed by registered retirement savings plans, registered disability savings plans, registered education savings plans, registered retirement income funds, tax-free savings accounts and deferred profit sharing plans within the meaning of the *Income Tax Act* (Canada) (other than a deferred profit sharing plan to which payments are made by Royal Bank or a corporation or partnership with which Royal Bank does not deal at arm’s length). See “*Canadian Federal Income Tax Considerations – Eligibility for Investment*”, including the summary of the “prohibited investment” rules.

No Early Redemption:

The Notes will not be redeemable by Royal Bank before the Maturity Date.

Risk Factors:

The Notes provide opportunities but may pose risks. You should carefully consider the risks involved in purchasing Notes before reaching a decision and you should discuss with your advisors the suitability of purchasing Notes in light of your particular investment objectives and after reviewing all available information, including the risk factors described in “*Risk Factors*” below.

Suitability for Investment Purposes:

Investors should consult with their advisors regarding the suitability of an investment in the Notes. For further information see “*Related Matters – Suitability for Investment Purposes*”.

Secondary Market:

The Notes will not be listed on any stock exchange and there is no assurance that a secondary market for Notes will develop or be sustainable. RBC DS has indicated to Royal Bank that it intends to use its best reasonable efforts to establish and maintain an over-the-counter market for the Notes by making itself available as a purchaser of the Notes if and so long as RBC DS in its sole discretion believes that there is a reasonable likelihood that it will be able to sell such Notes at a profit or at no more than a nominal loss. RBC DS may, in its sole discretion, cease to offer to purchase Notes without any requirement to provide notice to Noteholders, registered or beneficial, including in circumstances where RBC DS perceives that the supply of Notes exceeds demand or if any change occurs in conditions imposed by regulatory or legislative action such that RBC DS determines that it can no longer lawfully purchase or sell Notes without incurring unreasonable expenses or complying with onerous conditions.

If RBC DS offers to purchase Notes in connection with a secondary market transaction, there is no assurance that the purchase price will be the highest possible price available in any secondary market for the Notes and, in particular, any purchase price will be reduced by up to 1.00% of the Principal Amount if the Noteholder sells Notes within 180 days of the Issue Date due to any Early Trading Charge. The resale price of Notes could be below the \$100 Principal Amount per Note.

Notes non-CDIC Protected:

The Notes will not constitute deposits that are insured under the *Canada Deposit Insurance Corporation Act*.

Right of Cancellation:

An initial purchaser will have the right to cancel any order to buy Notes within two Business Days after the later of (i) the day on which the agreement to purchase the Notes is entered into and (ii) the day on which this Information Statement is provided to the initial purchaser.

Upon cancellation of the order, the initial purchaser is entitled to a refund of the Principal Amount and any fees relating to the purchase that they may have paid. This right to cancel a purchase order does not extend to investors buying a Note in any secondary market. An initial purchaser of the Notes may cancel their purchase order by calling their investment advisor or RBC DS at (800) 280-4434.

Fees and Expenses:

Selling agents who sell the Notes will receive, from our own funds, an initial selling commission of 0.50% of the Principal Amount of each Note sold. This fee will not reduce the amount of return payable on the Notes. If an Extraordinary Event occurs, we may incur expenses unwinding any hedge position in respect of our obligation to make payments under the Notes, which could reduce

the amount of return otherwise payable on the Notes. For further information, see “*Related Matters – Fees and Expenses*”.

Availability of Information:

Detailed information about the Notes, including a copy of this Information Statement, will be posted on Royal Bank’s structured notes website at www.rbcnotes.com and will be provided in writing on request from RBC DS at (800) 280-4434.

Certain additional information regarding the Notes will also be provided on an ongoing basis at www.rbcnotes.com, including (i) the most recent bid price for the Notes and any applicable Early Trading Charge and/or (ii) the last available measure that would be used to determine the Variable Return.

Such information will also be available from your investment advisor.

Deferred Payment:

Federal laws of Canada prohibit anyone from receiving interest at an effective rate that is greater than 60% per annum. Therefore, in the event that the sum of the Variable Return, the Fixed Interest and any other interest payments paid on the Notes are greater than 60% per annum at maturity, we will pay you, at maturity, only the portion of the Variable Return that constitutes 60% per annum, taking into account the Fixed Interest and any other interest payments, and will pay the balance, together with interest at Royal Bank’s equivalent term deposit rate as soon as permitted under applicable laws.

SAMPLE CALCULATIONS OF THE PAYMENT AMOUNT

The examples set out below are included for illustration purposes only and do not take into account the Fixed Interest payments. The levels of the Underlying Index used to illustrate the calculation of the Variable Return are not estimates or forecasts of the level of the Underlying Index on which the Base Level and Settlement Level or the calculation of the Percentage Change, and in turn the Variable Return, will depend. All examples assume that a Noteholder has purchased Notes with an aggregate principal amount of \$10,000 and that no Extraordinary Event has occurred.

Example #1 — Hypothetical calculation of the Payment Amount where the Percentage Change of the Underlying Index is positive. It is assumed that the Base Level of the Underlying Index is 1,433.864 and the Settlement Level of the Underlying Index is 1,864.023 (hypothetical). The Payment Amount would be calculated as follows:

Base Level = 1,433.864

Settlement Level = 1,864.023

Percentage Change = $(1,864.023 - 1,433.864) / 1,433.864 = 0.30000$ or 30.000%

Participation Rate = 120.00%

Variable Return = $\$10,000.00 \times 30.000\% \times 120.00\% = \$3,600.00$

Payment Amount = $\$10,000.00 + \$3,600.00 = \$13,600.00$

In this example, the Payment Amount provides a return equivalent to an annually compounded rate of return of 10.79%.

Example #2 — Hypothetical calculation of the Payment Amount where the Percentage Change of the Underlying Index is deemed to be zero. It is assumed that the Base Level of the Underlying Index is 1,433.864 and the Settlement Level of the Underlying Index is 1,003.705 (hypothetical). The Payment Amount would be calculated as follows:

Base Level = 1,433.864

Settlement Level = 1,003.705

Percentage Change = $(1,003.705 - 1,433.864) / 1,433.864 = -0.30000$ or -30.000%

Participation Rate = 120.00%

Variable Return = $\$10,000.00 \times 0.000\% \times 120.00\% = \0.00

Payment Amount = $\$10,000.00 + \$0.00 = \$10,000.00$

In this example, the Payment Amount provides a return equivalent to an annually compounded rate of return of 0.00%.

SUMMARY INFORMATION REGARDING THE UNDERLYING INDEX AND THE TARGET INDEX

RBC Asset Allocator 5% Risk Control Index

The following is a summary description of the RBC Asset Allocator 5% Risk Control Index based on information obtained from the Index Sponsor's website at www.solactive.com as well as other publicly available sources.

Underlying Index	RBC Asset Allocator 5% Risk Control Index
Target Index	RBC Asset Allocator Index
Strategy	The Underlying Index takes a variable exposure to the Target Index with the aim to achieve an annualized volatility of less than or equal to 5.00%. The Underlying Index allows leverage up to 150.0%. The Target Index consists of 12 Sub-Indices allocating between, equity, fixed income, gold and cash based on a momentum signal.
Components of the Sub-Indices	Equities, Bonds, Gold and Cash
Regional Allocation	United States
Index Sponsor	Solactive AG
Closing Level (March 30, 2022)	1,433.864

General Information

The RBC Asset Allocator 5% Risk Control Index was first launched and published on November 27, 2020. The RBC Asset Allocator Index was first launched on November 19, 2020. Additional information with respect to the Underlying Index and the Target Index can be found at www.solactive.com/indices. The RBC Asset Allocator 5% Risk Control Index is owned by RBC Capital Markets, LLC, and is calculated, administered and published by the Index Sponsor, Solactive AG, assuming the role as administrator under the Regulation (EU) 2016/1011.

The Underlying Index

The RBC Asset Allocator 5% Risk Control Index takes a variable exposure to the Target Index with the aim to achieve the Volatility Target by dynamically adjusting, on a daily basis, the Underlying Index's exposure to the Target Index, with the remaining exposure rebalanced into a notional cash component. The Underlying Index's exposure to the Target Index is calculated based on the ratio of the Volatility Target and the Historical Volatility, capped by the Maximum Leverage. Historical Volatility is determined by selecting the greater of either the Short-Term Volatility or the Long-Term Volatility. If Historical Volatility decreases and falls below the Volatility Target, the Underlying Index will increase its exposure to the Target Index above 100%, up to the Maximum Leverage, in an attempt to maintain the Volatility Target. If Historical Volatility increases and rises above the Volatility Target, the Underlying Index will decrease its exposure to the Target Index below 100%, in an attempt to maintain the Volatility Target, resulting in an additional notional cash position. Therefore, the Underlying Index's exposure to the Target Index can be greater than 100% (but not greater than the Maximum Leverage), less than 100% (as low as zero), or equal to 100%. Notwithstanding that the name of the Underlying Index includes the phrase "Risk Control", the Underlying Index may decrease significantly more or increase significantly less than the Target Index. **For the avoidance of doubt, the return on the Notes is linked to the Underlying Index and is not linked to the Target Index.** The Notes do not represent an interest in the Underlying Index, the Target Index or in the Components, and holders will have no right or entitlement to such Components including, without limitation, redemption rights (if any), voting rights or rights to receive dividends or other distributions paid on those Components. The levels of the Underlying Index used to determine the Variable Return on the Notes will be affected by the deduction of an annual fee equal to 1.00% in determining the index level.

The Target Index

The RBC Asset Allocator Index is an excess return index that reflects the price changes of the Components. The level of the Target Index includes the funding costs associated with the purchase of the Components in the Sub-Indices. The Target Index applies a dynamic asset allocation mechanism to a basic core of assets with the aim of providing a simple and efficient long-term "buy & hold" investment solution. The Target Index aims to deliver diverse and dynamic exposure regardless of market conditions. The Target Index is rules-based and incorporates three key assets (further described below in "Sub-Indices and Their Components"), equities, fixed income and gold (the "Assets"), as well as cash (collectively with the Assets, the "Components"). The Target Index uses a momentum indicator to adjust allocations on a monthly basis to increase exposure to upward trending assets while paring back exposure to those that are trending downward. The Target Index averages the performance of the 12 Sub-Indices and is rebalanced equally between the Sub-Indices once a year. Each Sub-Index is reconstituted in a different calendar month, once a year. At the time of reconstitution in each calendar month, the applicable Sub-Index is reconstituted based on the Asset Allocation Strategy further described below. For further details regarding these adjustments and the methodology for the Target Index and its Sub-Indices, refer to the Index Sponsor's website at www.solactive.com.

Sub-Indices and Their Components

The Target Index consists of 12 sub-indices (each, a "Sub-Index" and collectively, the "Sub-Indices"), no selection of Components takes place at the Target Index level.

The 12 Sub-Indices may contain any one of four Components:

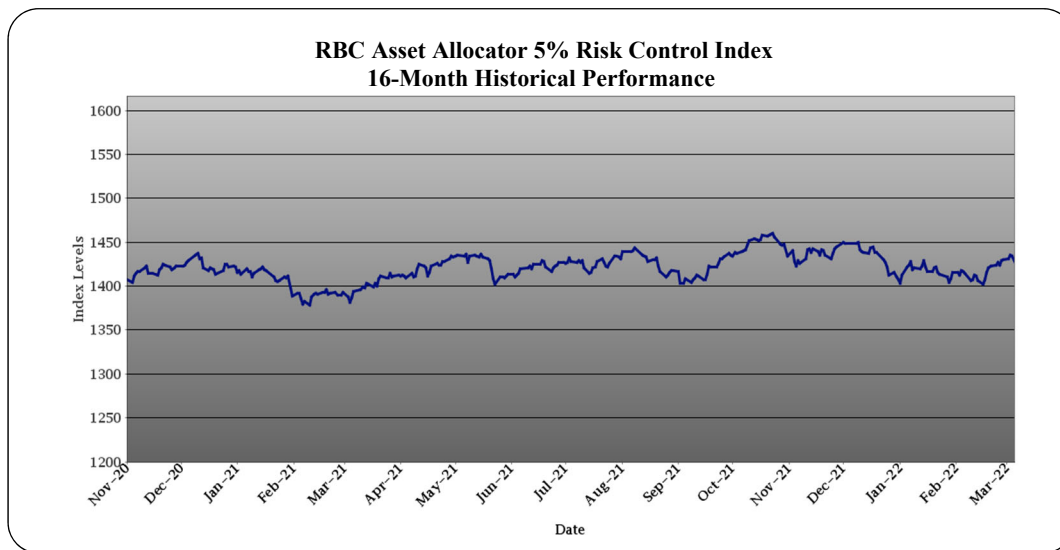

Component	Name	Ticker	ISIN	Currency
Equity	SPDR S&P 500 DR Trust	SPY UP Equity	US78463V1070	USD
Bonds	iShares 7-10 Year Treasury Bond ETF	IEF UQ Equity	US4642874402	USD
Gold	SPDR Gold Shares	GLD UP Equity	US78463V1070	USD
Cash	RBC Cash Overnight Accrual Total Return Index	RBCMMSRU Index	DE000SL0BMK6	USD

Asset allocation and weighting of the Sub-Indices is calculated one month prior to the annual reconstitution day for the applicable Sub-Index based on the 11-month return of each Asset. If each of the three Assets underperform the cash index, each Asset receives a 0% weight. If one of the three Assets outperforms the cash index, that Asset receives a 60% weight. If at least two of the three Assets outperform the cash index, the best performing Asset is assigned a 60% weight and the second best performing Asset is assigned a 40% weight. This process is the “Asset Allocation Strategy”.

The Target Index averages the performance of the 12 Sub-Indices and is rebalanced equally between the Sub-Indices once a year. Each Sub-Index is reconstituted in a different calendar month, once a year. At the time of reconstitution in each calendar month, the applicable Sub-Index is reconstituted based on the Asset Allocation Strategy. For further details regarding these adjustments and the methodology for the Target Index and its Sub-Indices, refer to the Index Sponsor’s website at www.solactive.com.

Historical Performance

The following chart demonstrates the historical level of the RBC Asset Allocator 5% Risk Control Index for the period from November 27, 2020 to March 31, 2022. The historical performance of the RBC Asset Allocator 5% Risk Control Index reflects a variable exposure to the performance of the Target Index with the aim to achieve an annualized volatility of less than or equal to 5.00%.

Historical performance of the RBC Asset Allocator 5% Risk Control Index will not necessarily predict future performance of the RBC Asset Allocator 5% Risk Control Index or the Notes. The source of the data displayed in this chart is Bloomberg L.P. and its accuracy cannot be guaranteed.

Certain information contained in this Information Statement regarding the Underlying Index and the Target Index, including, without limitation, the make-up, performance, calculation and changes in their components, has been derived from publicly available sources without independent verification. Such information reflects the policies of and is subject to change by the Index Sponsor. Royal Bank makes no representation or warranty as to the accuracy or completeness of such information. While Royal Bank created the Target Index and the Underlying Index, it has entered into an index calculation agreement pursuant to which it has delegated all responsibility for the administration of the Target Index and the Underlying Index, and Royal Bank does not have any influence over the determination of the allocation of the Components, the calculation of the level of the Underlying Index or the Target Index or the making of any adjustments to the methodology of these indices. Instead, all such administration, determinations, calculations and adjustments will be made independently by the Index Sponsor.

The Index Sponsor independently calculates, maintains and publishes the Underlying Index and Target Index. The Index Sponsor is a party to an index calculation agreement with Royal Bank. Following termination of the index calculation agreement, the Index Sponsor would have no obligation to continue to publish, and may discontinue publication of, the Underlying Index or the Target Index. The Index Sponsor has no obligation relating to the Notes or amounts to be paid to an investor, including any obligation to take the needs of Royal Bank or the beneficial owners of the Notes into consideration for any reason. The Index Sponsor will not receive any of the proceeds of the offering of the Notes, is not responsible for and has not participated in, the offering of the Notes nor is it responsible for, nor will it participate in, the determination or calculation of the amount receivable by beneficial owners of the Notes. The Index Sponsor makes no representation or warranty, express or implied, regarding the advisability of investing in securities generally or the Notes in particular. Neither the Index Sponsor nor any of its affiliates are involved in the operation or distribution of the Notes and neither the Index Sponsor nor its affiliates shall have any liability for operation or distribution of the Notes or the failure of the Notes to achieve their investment objective.

The Index Sponsor is not related to Royal Bank. The Index Sponsor and Royal Bank have entered into an index calculation agreement providing the Index Sponsor, in exchange for a fee, with the right to distribute and disseminate the Target Index and the Underlying Index. Under the terms of the index calculation agreement, Royal Bank retains the rights to use the Target Index and the Underlying Index, including in connection with the Notes. The Index Sponsor does not guarantee the accuracy or completeness of the Underlying Index or the Target Index, any data included therein, or any data from which it is derived, and the Index Sponsor has no liability for any errors, omissions, or interruptions therein. The Index Sponsor does not make any warranty, express or implied, as to results to be obtained from use of information provided by the Index Sponsor in respect of the Underlying Index or the Target Index and the Index Sponsor expressly disclaims all warranties of suitability with respect thereto.

The Underlying Index and the Target Index are calculated by the Index Sponsor. The Notes are not sponsored, promoted, sold or supported in any other manner by the Index Sponsor nor does the Index Sponsor offer any express or implicit guarantee or assurance either with regard to the results of using the Underlying Index and/or Underlying Index trademarks or the closing level at any time or in any other respect. The Underlying Index and the Target Index are calculated and published by the Index Sponsor. The Index Sponsor uses its best efforts to ensure that the Underlying Index and the Target Index are calculated correctly. Irrespective of its obligations towards Royal Bank, the Index Sponsor has no obligation to point out errors in the Underlying Index or the Target Index to third parties including but not limited to investors and/or financial intermediaries of the Notes. Neither publication of the Underlying Index or the Target Index by the Index Sponsor nor the use of the Underlying Index or the Underlying Index trade marks for the purpose of use in connection with the Notes constitutes a recommendation by the Index Sponsor to invest capital in the Notes nor does it in any way represent an assurance or opinion of the Index Sponsor with regard to any investment in the Notes.

The name “Solactive” is a registered trademark of the Index Sponsor. The Index Sponsor is registered with and regulated by the German Federal Financial Supervisory Authority.

PAYMENTS UNDER THE NOTES

The following is a summary description of the basis for the calculation of the amounts payable under the Notes.

Payment Amount on Maturity

In addition to the final Fixed Interest payment, a Noteholder's payment entitlement at maturity or "**Payment Amount**" will be calculated by us or by the Calculation Agent based on the following formula:

$$\text{Payment Amount} = \text{Principal Amount} + \text{Variable Return}$$

Alternatively, in certain circumstances Alternative Variable Return may be determined and, if positive, be payable prior to maturity. In such circumstances, the Fixed Interest payments will remain payable during the term of the Notes but no Variable Return will be payable at maturity. This possibility is described below under "*Extraordinary Events – Payment Due to an Extraordinary Event*".

Fixed Interest Payment

Fixed Interest on the Notes will be payable on each Fixed Interest Payment Date, as listed in the schedule below, in arrears, at a fixed interest rate of 1.50% of the Principal Amount per Note for each Interest Period. The Fixed Interest payments are not contingent on or related to the performance of the Underlying Index.

Fixed Interest Payment Dates

April 4, 2023
April 3, 2024
April 3, 2025

Calculation of Variable Return

"**Participation Rate**" will be 120.00%.

"**Variable Return**" payable on a Note will be an amount (if any), not less than zero, calculated based on the following formula:

$$\text{Variable Return} = \text{Principal Amount} \times \text{Percentage Change} \times \text{Participation Rate}$$

In no event will the Variable Return, if any, be less than zero. Together with Fixed Interest payments, the Variable Return will represent the return on the Notes for the entire period that the Notes are issued and outstanding. Once finally determined, the Variable Return in respect of each day during which the Notes are outstanding will be the total Variable Return divided by the number of days the Notes are outstanding.

Calculation of Percentage Change

The "**Percentage Change**" will be a number, expressed as a percentage and rounded to three decimal places, determined as follows:

$$\text{Percentage Change} = \frac{(\text{Settlement Level} - \text{Base Level})}{\text{Base Level}}$$

where:

"**Base Level**" is, subject to a delay in the circumstances described under "*– Extraordinary Events*", the official closing level of the Underlying Index, as published by the Index Sponsor, on the Initial Valuation Date, rounded to two decimal places.

"**Settlement Level**" is, subject to a delay or acceleration in the circumstances described under "*– Extraordinary Events*", the official closing level (or deemed closing level, as the case may be) of the Underlying Index, as published by the Index Sponsor, on the Final Valuation Date, rounded to two decimal places. If any such day is not an Exchange Day for the Underlying Index, the Final Valuation Date will be the next following Exchange Day. The determination of the Settlement Level may be subject to acceleration or postponement upon the occurrence of certain Extraordinary Events described below under "*– Extraordinary Events*".

Extraordinary Events

Payment Due to an Extraordinary Event

If we determine at any time that an Extraordinary Event has occurred and is continuing, and if such Extraordinary Event has continued for at least five consecutive days that would have been Exchange Days but for the occurrence of the Extraordinary Event, then we may, at our option, elect to determine and, if positive, pay Alternative Variable Return on all, but not part, of the Notes then issued and outstanding effective the close of business on the effective date notice of such election is given by us to the Noteholders.

“**Alternative Variable Return**” will be equal to the fair and reasonable amount, as determined by Royal Bank or the Calculation Agent, that a person or company (other than Royal Bank or any of its affiliates) that is an active participant in markets relevant to the Underlying Index would pay, taking into account all relevant market circumstances, for a right to receive the return (other than Fixed Interest) that, but for the occurrence of the Extraordinary Event, would have been payable on the Maturity Date. Calculations and determinations in respect of Alternative Variable Return will, absent manifest error, be final and binding on Noteholders.

Payment of Alternative Variable Return will be made on the later of (a) the tenth Business Day after the effective date notice of the election to pay Alternative Variable Return is given by us, or (b) if any calculation is determined, made or confirmed by the Calculation Agent, the tenth Business Day after such calculation is so determined, made or confirmed.

In such circumstances, the Principal Amount will remain payable only at maturity and Fixed Interest will remain payable only on any remaining Fixed Interest Payment Dates. Other than Fixed Interest, Noteholders will have no further entitlement to receive any return on their investment, including in respect of the Variable Return. Noteholders will receive Fixed Interest on each of the Fixed Interest Payment Dates regardless of the occurrence of an Extraordinary Event.

Delay in Determination of the Base Level and/or Settlement Level

If an Extraordinary Event occurs and is continuing on a day scheduled to be a day on which the Base Level or Settlement Level is to be determined, then, unless we elect to determine and, if positive, pay Alternative Variable Return as contemplated under “– *Payment Due to an Extraordinary Event*”, the date on which the Base Level and/or Settlement Level will be determined will be the earlier of (a) the next Exchange Day on which there is no such Extraordinary Event and (b) the fifth Exchange Day following the Maturity Date.

If the date on which the Settlement Level is to be determined is postponed due to an Extraordinary Event, the Variable Return (if any) payable under the Notes will be paid on (a) the first Business Day after such Settlement Level is determined if the level of the Underlying Index is calculated or determined by us, or (b) as soon as practicable after such date if the level of the Underlying Index is determined or confirmed by the Calculation Agent.

Available Information Respecting Percentage Change

A Noteholder may obtain current information with respect to the amount that would be the Percentage Change at a point in time from its dealer or financial advisor or by contacting a representative of the Calculation Agent. Such amount will be calculated on the basis described under “– *Calculation of Percentage Change*” as if the date on which the information is provided was the Final Valuation Date.

Neither we nor the Calculation Agent assume responsibility for the accuracy or completeness of such information. We and the Calculation Agent do not, and will not, assume any liability to Noteholders for any calculations or for any actions, including a sale of the Notes, taken by Noteholders in reliance upon our calculations.

METHOD OF PAYMENT

The Principal Amount, Fixed Interest and Variable Return or Alternative Variable Return, as the case may be, if any, payable under the Notes will be made available at our option by RBC DS (or its delegate on our behalf), either through our Paying and Transfer Agent and/or CDS (or the Nominee) in accordance with arrangements between us and the Paying and Transfer Agent and/or CDS, or if we in our sole discretion determine, directly to Noteholders. Our responsibility and liability in respect of Notes is limited to making payment of any amount due to CDS (or the Nominee).

Payments of the Principal Amount, Fixed Interest and Variable Return or Alternative Variable Return, as the case may be, if any, on Notes issued in definitive form (which will only occur in certain exceptional circumstances) will be made by cheque mailed to the Noteholder at the address of the Noteholder appearing in a register which we will maintain or cause to be maintained or, if requested in writing by the Noteholder at least five Business Days before the date of the payment and agreed to by us, by electronic funds transfer to a bank account designated by the Noteholder with a bank in Canada. Payment under any Note in definitive form is conditional upon the Noteholder first delivering the Note to us.

We reserve the right, in the case of the determination of Alternative Variable Return, to mark on the Global Note or the Notes, if represented in definitive form, as the case may be, that Alternative Variable Return, if any, has been paid in full and only the Fixed Interest payments and the Principal Amount remain payable. For greater certainty, if Alternative Variable Return is paid, the Fixed Interest will remain payable during the term of the Notes.

Neither we nor the Paying and Transfer Agent will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership of any Notes or for maintaining, supervising or reviewing any records relating to such ownership so long as the Notes are represented by the Global Note.

Neither we nor the Paying and Transfer Agent nor CDS (or the Nominee) will be bound to see to the execution of any trust affecting the ownership of any Note or be affected by notice of any equity that may be subsisting with respect to any Note.

RELATED MATTERS

The following is a summary of other information relevant to your decision to purchase Notes.

Differences from Fixed Rate Investments

The Notes are different from conventional fixed rate investments. Other than the Fixed Interest payable on each Fixed Interest Payment Date, the Notes will not provide Noteholders with a regular income stream prior to maturity, and will not provide a return at maturity that is calculated by reference to a fixed or floating rate of interest that is specified prior to maturity. Unlike the return on many other deposit liabilities of Canadian banks and other fixed rate investments, the return on the Notes is uncertain in that if the level of the Underlying Index does not increase over the term of the Notes, only the Fixed Interest will be payable on the Notes. There is no assurance that the level of the Underlying Index will increase over the term of the Notes and there is therefore no assurance that a Noteholder will receive any amount other than a fixed return of 1.50% of the Principal Amount per Note for each Interest Period and repayment of the Principal Amount at maturity.

No assurance can be made that a Noteholder will receive any payment on the Notes other than payment of the Fixed Interest on each Fixed Interest Payment Date and the repayment of the Principal Amount of each Note at maturity.

Suitability for Investment Purposes

The Notes provide opportunities but also present risks. Investors should consult with their advisors regarding the suitability of an investment in the Notes given their investment objectives. The Notes may be suitable for investors who want to protect their principal investment at maturity, who are looking to earn a fixed rate return with the potential to earn an enhanced return over fixed rate investments and who are prepared to assume the risks associated with an investment in the Underlying Index, which aims to achieve an annualized volatility of less than or equal to 5.00% by dynamically adjusting, on a daily basis, the Underlying Index's exposure to the Target Index and a notional cash component. The Notes are only suitable for investors with a long-term investment horizon who are prepared to hold the Notes until maturity.

Registration

The Notes will be represented in the form of a fully registered, book-entry only global note (the "**Global Note**") to be held by or on behalf of CDS in Toronto, Canada as custodian of the Global Note, and registered in the name of CDS in Toronto, Canada or its nominee (the "**Nominee**") initially CDS & CO. Except in limited circumstances, purchasers of beneficial interests in the Global Note (the "**Noteholders**") will not be entitled to receive Notes in definitive form. Rather, the Notes will be represented in book-entry form only.

Plan of Distribution

Each Note will be issued at \$100, being 100% of the Principal Amount of the Note.

The Notes will be offered from time to time by us through selling agents. We may also sell Notes to a selling agent, acting as principal, for resale to one or more investors at varying prices related to prevailing market prices at the time of such resale to be determined by such selling agent. We also reserve the right to sell Notes to investors directly on our own behalf in those jurisdictions in which we are authorized to do so. Sales commissions and related fees are described under "**Fees and Expenses**".

Any selling agent may from time to time purchase and sell Notes in the secondary market, but is not obligated to do so. There can be no assurance that there will be a secondary market for the Notes. The offering price and other selling terms for such sales in the secondary market may, from time to time, be varied by the relevant selling agent. See "**Secondary Market**".

We will have the sole right to accept offers to purchase Notes and may reject any proposed purchase of Notes in whole or in part. A selling agent will have the right, in its discretion reasonably exercised, without notice to us, to reject any offer to purchase Notes received by it in whole or in part.

The Notes may not be offered or sold in any jurisdiction outside of Canada except in circumstances which do not constitute a public offering or distribution under the laws of the jurisdiction where the Notes are to be offered or sold. Royal Bank and the selling agents require persons into whose possession this Information Statement comes to inform themselves of and observe any and all such restrictions. In particular, the Notes have not been and will not be registered under the *Securities Act of 1933* (United States), as amended, and may not be offered or sold within the United States or to, or for the account or benefit of, United States persons except in certain transactions exempt from the registration requirements of the *Securities Act of 1933* (United States), as amended. Terms used in this paragraph have the meanings given to them by Regulation S under the *Securities Act of 1933* (United States), as amended.

Fees and Expenses

We will pay selling agents who sell the Notes, from our own funds, an initial selling commission of 0.50% of the Principal Amount of each Note. This fee will not reduce the amount of return payable on the Notes. If an Extraordinary Event occurs, we may incur expenses unwinding any hedge position in respect of our obligation to make payments under the Notes, which could reduce the amount of return otherwise payable on the Notes.

Purchases by RBC DS

RBC DS or any of its affiliates, associates or successors, may at any time, subject to applicable laws and the policies of any stock exchange on which the Notes may be listed, purchase Notes at any price in the open market or by private agreement.

No Redemption Prior to Maturity

The Notes will not be redeemable by Royal Bank before the Maturity Date.

Secondary Market

RBC DS has indicated to Royal Bank that it intends to use its best reasonable efforts to establish and maintain an over-the-counter market for the Notes by making itself available as a purchaser of the Notes if and so long as RBC DS in its sole discretion believes that there is a reasonable likelihood that it will be able to sell such Notes at a profit or at no more than a nominal loss. In doing so, RBC DS may act as principal, purchasing and reselling Notes to new or existing Noteholders. RBC DS may, in its sole discretion, cease to offer to purchase Notes without any requirement to provide notice to Noteholders, registered or beneficial, including in circumstances where RBC DS perceives that the supply of Notes exceeds demand or if any change occurs in conditions imposed by regulatory or legislative action such that RBC DS determines that it can no longer lawfully purchase or sell Notes without incurring unreasonable expenses or complying with onerous conditions. Notwithstanding the foregoing, RBC DS may purchase and Royal Bank may continue to create and issue Notes under certain circumstances when RBC DS has ceased to maintain a market for the Notes. There is no provision for the early redemption of the Notes by Noteholders and there is no guarantee that any secondary market that may develop will be liquid or sustainable. Consequently, the Notes should not be viewed as trading instruments.

An Early Trading Charge of up to 1.00% of the Principal Amount of a Note will be deducted from the amount received by a holder of Notes as sales proceeds if the Noteholder sells Notes within 180 days of the Issue Date. The specific amount of Early Trading Charge in relation to a resale transaction will be determined as follows:

If Sold Within the Following Number of Days from the Issue Date	Early Trading Charge (% of Principal Amount)
1 - 90 days	1.00%
91 - 180 days	0.50%
Thereafter	Nil

The Noteholder may wish to consult his or her investment advisor as to whether it would be more favourable in the circumstances at any time to sell Notes (assuming the availability of a secondary market) or hold Notes until the Maturity Date.

Right of Cancellation

An initial purchaser will have the right to cancel any order to buy Notes within two Business Days after the later of (i) the day on which the agreement to purchase the Notes is entered into and (ii) the day on which this Information Statement is provided to the initial purchaser.

The agreement to purchase the Notes will be entered into (i) if the order to purchase is received via telephone or electronic means, on the day on which the order to purchase is received, and (ii) if the order to purchase is received in person, on the second day following the later of (a) the day on which this Information Statement is provided to the investor and (b) the day on which the order to purchase is received.

Initial purchasers of the Notes will be deemed to have been provided the Information Statement: (i) on the day recorded as the time of sending by the server or other electronic transmission system, if provided by electronic means; (ii) on the day recorded as the time of sending by a fax machine, if provided by fax; (iii) five Business Days after the postmark date, if provided by mail; and (iv) when it is received, in any other case.

Upon cancellation of the order, the initial purchaser is entitled to a refund of the Principal Amount and any fees relating to the purchase that they may have paid. This right to cancel a purchase order does not extend to investors buying a Note in any secondary market. An initial purchaser of the Notes may cancel their purchase order by calling their investment advisor or RBC DS at (800) 280-4434.

Secondary Market Resales

The Principal Amount of each Note is guaranteed only if the Note is held until the Maturity Date. The resale of a Note by the investor in any secondary market could result in an investor receiving less than the Principal Amount.

Governing Law

The Notes, and the terms thereof, will be governed by and construed in accordance with the laws of the Province of Ontario, Canada, and the federal laws of Canada applicable in Ontario.

Further Issuance of Notes

We reserve the right to issue the Notes in additional tranches and may issue other note obligations, including listed note obligations subject to receipt of necessary approvals. Such other note obligations may have terms substantially similar to the terms of the Notes and may be offered by us concurrently with the offering of this or other tranches of Notes.

Notices to Noteholders

We will provide notice to Noteholders of any material events relating to the Notes, including notice of any amendment to the Notes that impacts the amount of return payable in respect of the Notes.

Amendments to the Notes

The Global Note may be amended without the consent of the Noteholders if in our reasonable opinion the amendment would not materially and adversely affect the rights of the Noteholders. In other cases, the Global Note may be amended if the amendment is approved by a resolution passed by the favourable votes of the Noteholders representing not less than 66 2/3% of the outstanding aggregate principal amount of the Notes represented for the purpose of considering the resolution. Each Noteholder is entitled to one vote per \$100 of principal amount held for the purpose of voting at meetings convened for this purpose. The Notes do not carry the right to vote in any other circumstances.

Potential Conflicts of Interest

We, our subsidiary, RBC DS, or any of our respective affiliates will perform functions or engage in activities in the course of our normal respective business operations that could adversely impact the value of the Notes, your ability to resell your Notes or the amount or timing of receipt of entitlements under the Notes. For example, Royal Bank and RBC DS may from time to time, in the course of our respective normal business operations, have dealings in the Components or the securities that comprise the Components, or with one or more of the issuers of the Components or the issuers of the securities that comprise the Components. While Royal Bank created the Target Index and the Underlying Index, it has entered into an index calculation agreement pursuant to which it has delegated all responsibility for the administration of the Target Index and the Underlying Index and the Royal Bank does not have any influence over the determination of the allocation of the Components, the calculation of the level of the Underlying Index or the Target Index or the making of any adjustments to the methodology of these indices. Instead, all such administration, determinations, calculations and adjustments will be made independently by the Index Sponsor.

In addition, we or RBC DS, as our Calculation Agent, will be responsible for determining the amounts of the return payable under the Notes, including the amount of any Alternative Variable Return payable after the occurrence of an Extraordinary Event. We or RBC DS may exercise judgment and discretion in relation to the calculations, determinations, functions and activities undertaken in respect of the Notes from time to time. Whenever we or RBC DS are required to act, we will do so in good faith and our calculations and determinations in respect of the Notes will, absent manifest error, be final and binding on holders of Notes. We will base all such actions on normal commercial criteria in the particular circumstances and we will not take into account the effect, if any, of such actions on the level of the Underlying Index, the amount of the Variable Return that may be payable on the Notes or Noteholders' interests generally.

Consequently, potential conflicts between the interests of Noteholders and our interests may arise. Neither we nor the Calculation Agent warrant the accuracy or completeness of the information made available with respect to the underlying securities comprising the Target Index or of calculations made in connection with the Notes.

Discontinuance or Modification of the Underlying Index and/or the Target Index

If the level of the Underlying Index is not calculated and published by its Index Sponsor, but is calculated and publicly announced by another independent authoritative person or independent party acceptable to the Calculation Agent (the “**Third Party**”) appointed as a result of the discontinuance of the calculation of the Underlying Index and/or the Target Index, as applicable, by the Index Sponsor, the Base Level and Settlement Level (as applicable) will be determined by reference to the closing level of the Underlying Index as so calculated and announced by such Third Party.

If, prior to the determination of the Base Level or Settlement Level, we determine in good faith that the Index Sponsor or the Third Party has materially changed the numerical form of, or the method or basis of calculating or reconfiguring, the Underlying Index and/or the Target Index so as to materially impact the Underlying Index, as applicable, or in any other way has materially modified the Underlying Index and/or the Target Index so as to materially impact the Underlying Index, as applicable, the Calculation Agent will make such calculations as it may deem appropriate so that the Variable Return due is as near as practicable to that which would have been payable had such change or modification not taken effect.

If at any time the Index Sponsor or the Third Party ceases calculation and dissemination of the Underlying Index and/or the Target Index, either temporarily or permanently, and does not provide a successor index, we may, at our option, designate another index to replace the Underlying Index and/or the Target Index, as applicable, provided that we reasonably determine that the successor index substantially tracks the same strategy and Volatility Target as the Underlying Index and substantially tracks the excess return performance of the Target Index, or, if the Target Index is no longer being calculated, the same Asset Allocation Strategy with respect to the Components as the Target Index, subject to appropriate adjustments being made to the terms and provisions of the Notes which the Calculation Agent determines to be necessary or appropriate to preserve the economic value of the Notes as of the effective date of replacement. If at any time Royal Bank is unable to hedge its position in respect of its obligation to make payment of amounts owing under the Notes based on the Underlying Index or the Target Index, including as a result of the general unavailability, discontinuance or suspension of trading on any relevant Principal Exchange or Related Exchange of futures contracts, forward contracts or options contracts related to the Underlying Index, the Target Index or the Components, then Royal Bank may, at its option, designate another index in respect of which it is able to hedge its related obligations to replace the Underlying Index or the Target Index, provided that the requirements applicable to the successor index and the adjustments, each as described in the preceding sentence, shall apply. Otherwise, the Calculation Agent will make such calculations as it may deem appropriate to determine the Variable Return using, to the extent possible, the formula and method of calculating the Underlying Index as of the date it was last so calculated.

Neither we, the Calculation Agent nor any Third Party will be responsible for good faith errors or omissions in calculating or disseminating information regarding the Underlying Index, the Target Index, any successor index thereto or replacement index therefor, or for adjustments or calculations by the Calculation Agent or any Third Party in order to arrive at a calculation of an average approximating the value of the Underlying Index, the Target Index, or the Variable Return, as applicable.

Deferred Payment

Federal laws of Canada prohibit anyone from receiving interest at an effective rate that is greater than 60% per annum. Therefore, in the event that the sum of the Variable Return, the Fixed Interest and any other interest payments paid on the Notes are greater than 60% per annum at maturity, we will pay you, at maturity, only the portion of the Variable Return that constitutes 60% per annum, taking into account the Fixed Interest and any other interest payments, and will pay the balance, together with interest at Royal Bank’s equivalent term deposit rate as soon as permitted under applicable laws.

CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Royal Bank's counsel, Davies Ward Phillips & Vineberg LLP, the following summary fairly describes the principal Canadian federal income tax considerations under the *Income Tax Act* (Canada) (the "**Tax Act**") generally applicable to an initial purchaser of Notes under this Information Statement who, at all relevant times, for purposes of the Tax Act, deals at arm's length with and is not affiliated with Royal Bank (a "**Holder**").

This summary is based upon the current provisions of the Tax Act and the regulations thereunder (the "**Regulations**"), all specific proposals to amend the Tax Act or such Regulations publicly announced by or on behalf of the federal Minister of Finance prior to the date hereof (the "**Proposals**") and counsel's understanding of the current administrative policies and practices of the Canada Revenue Agency ("**CRA**"). Except for the Proposals, this summary does not take into account or anticipate any changes (including retroactive changes) in the law or the administrative policies or practices of the CRA, whether by judicial, regulatory, governmental or legislative action, nor does it take into account tax laws of any province or territory of Canada, or of any jurisdiction outside Canada. Provisions of provincial income tax legislation vary from province to province in Canada and may differ from federal income tax legislation. No assurance can be given that the Proposals will be implemented in their current form, or at all. This summary assumes that the Holder will neither undertake nor arrange a transaction in respect of the Notes primarily for the purpose of obtaining a tax benefit, has not entered into a "derivative forward agreement" (as defined in the Tax Act) in respect of the Notes and that the Notes are not issued at a discount.

This summary is of a general nature only and is not intended to constitute, nor should it be relied upon or construed as, tax advice to any particular Holder, nor is it exhaustive of all possible Canadian federal income tax considerations. Holders should consult their own tax advisors as to the potential consequences to them of the acquisition, ownership and disposition of Notes having regard to their particular circumstances.

Holders Resident in Canada

The following discussion applies to a Holder who, at all relevant times, for the purposes of the Tax Act and any applicable income tax treaty or convention, is an individual (other than a trust) resident in Canada who acquires and holds the Notes as capital property (a "**Resident Holder**"). Certain Resident Holders who might not otherwise be considered to hold their Notes as capital property may have their Notes, and all other "Canadian securities" (as defined in the Tax Act) owned by such Resident Holders in the taxation year and all subsequent taxation years, treated as capital property by making the irrevocable election permitted by subsection 39(4) of the Tax Act.

Holding of Notes

A Resident Holder who holds the Notes until maturity (or earlier repayment in full by Royal Bank) will be required to include in computing the Resident Holder's income for the taxation year in which the maturity date (or early repayment) occurs the amount, if any, by which the amount payable at maturity (or early repayment) exceeds the Principal Amount of the Notes at that time except to the extent previously included by the Resident Holder in income.

The Notes will be a "prescribed debt obligation" for the purposes of the Tax Act. In certain circumstances, provisions of the Tax Act require a holder of a prescribed debt obligation to include in income as interest for each taxation year the amount of any interest, bonus or premium receivable in respect of the obligation over its term based on the maximum amount of interest, bonus or premium receivable on the obligation. Counsel's understanding of CRA's current administrative practice is that where the return on a prescribed debt obligation is not determinable, no deemed interest inclusion is required until such time as the return thereon becomes determinable. Counsel has been advised that Royal Bank anticipates that throughout each taxation year ending before the Maturity Date (or the date of earlier repayment in full) the return on the Notes generally will not be determinable. Where this is the case, on the basis of such understanding of the CRA's administrative practice, there should be no deemed accrual of interest on the Notes under the prescribed debt obligation rules for taxation years (being calendar years) of a Resident Holder ending prior to their Maturity Date (or, if applicable, the date of their earlier repayment in full), except as described below under "Disposition of Notes" where a Note is transferred before such date.

Interest

Any amount received or receivable by a Resident Holder (depending on the method regularly followed by the Resident Holder in computing income under the Tax Act) in a taxation year as, on account of, in lieu of payment of or in satisfaction of, interest will (including Fixed Interest and any Variable Return) be required to be included in computing the Resident Holder's income for the taxation year, except to the extent that such amount has already been included in the Resident Holder's income for that or a preceding taxation year.

Disposition of Notes

Where a Resident Holder disposes of a Note (other than to Royal Bank on the maturity date or earlier repayment in full), the Tax Act requires the amount of interest accrued on the Note that is unpaid at that time to be included in computing the income of the Resident Holder for the taxation year in which the disposition occurs and excludes such amount from the proceeds of disposition, except to the extent such amount has otherwise been included in computing the income of the Resident Holder for that year or a preceding year. Except as described two paragraphs below, on such assignment or other transfer of a Note by a Resident Holder (other than to Royal Bank on the Maturity Date), a formula amount will be deemed to have accrued on the Note up to the time of the transfer, so that such amount will be required to be included in the income of the Resident Holder for the taxation year of the Resident Holder in which the transfer occurs. Such formula amount equals the excess, if any, of the price for which it is so transferred over its outstanding principal amount at the time of the transfer.

The Resident Holder should realize a capital loss to the extent that the proceeds of disposition, net of amounts included in income as interest (including any formula amount as described above) and any reasonable costs of disposition, are less than the Resident Holder's adjusted cost base of the Notes. As described above, any gain realized from the disposition of Notes will be included in income and will not give rise to a capital gain.

The discussion above as to the inclusion of a formula amount on a transfer of a Note assumes that the Notes should not be viewed as notes in respect of which it can be determined at the time of their issue that the maximum amount of interest payable thereon in a year ending after that time is less than the maximum amount of interest (including Variable Return) payable thereon in a subsequent year. The correctness of this assumption is not free from doubt and, if incorrect, a Resident Holder who transfers a Note (other than to Royal Bank) may, depending on the particular circumstances, be able to treat a resulting gain as a capital gain. Resident Holders who dispose of Notes prior to the Maturity Date thereof (or earlier repayment in full by Royal Bank), should consult their own tax advisors with respect to their particular circumstances.

Treatment of Capital Losses

One-half of any capital loss realized by a Resident Holder will constitute an allowable capital loss that is deductible against taxable capital gains of the Resident Holder, subject to and in accordance with the provisions of the Tax Act.

Holders Not Resident in Canada

The following discussion applies to a Holder who, at all relevant times, for the purposes of the Tax Act is neither resident nor deemed to be resident in Canada, deals at arm's length with any Canadian resident (or deemed Canadian resident) to whom the Holder disposes the Notes, is neither a "specified shareholder" of Royal Bank nor a person who does not deal at arm's length with a specified shareholder of Royal Bank for purposes of the "thin capitalization" rule contained in subsection 18(4) of the Tax Act, does not use or hold and is not deemed to use or hold the Notes in the course of carrying on a business in Canada and is not an insurer carrying on an insurance business in Canada and elsewhere (a "**Non-Resident Holder**").

Interest paid or credited or deemed to be paid or credited on the Notes (including any amount paid at maturity in excess of the principal amount and interest deemed to be paid in certain cases involving the assignment or other transfer of a Note to a resident or deemed resident of Canada, likely including any formula amount as described above) to a Non-Resident Holder will not be subject to Canadian non-resident withholding tax unless any portion of such interest is contingent or dependent on the use of or production from property in Canada or is computed by reference to revenue, profit, cash flow, commodity price or any other similar criterion or by reference to dividends paid or payable to shareholders of any class of shares of the capital stock of a corporation ("**Participating Debt Interest**"). Having regard to the terms of the Notes and, in particular, that the Target Index is computed, in part by reference to dividends on Components, interest paid or credited or deemed to be paid or credited on the Notes may be considered to be Participating Debt Interest, although there is uncertainty on this question. Accordingly, Royal Bank expects that Canadian non-resident withholding tax will be withheld and remitted at the rate of 25% of the gross amount of any interest paid to a Non Resident Holder (although the rate of this withholding tax may ultimately be reduced pursuant to the terms of an applicable income tax treaty or convention between Canada and the country of residence of the Non-Resident Holder). Non- Resident Holders should consult with their own tax advisors before acquiring Notes.

There should be no other taxes on income (including taxable capital gains) payable by a Non-Resident Holder in respect of a Note.

Eligibility for Investment

The Notes, if issued on the date of this Information Statement, would be qualified investments (for purposes of the Tax Act) for trusts governed by registered retirement savings plans ("**RRSPs**"), registered retirement income funds ("**RRIFs**"), tax-free savings accounts ("**TFSAs**"), registered disability savings plans ("**RDSPs**"), registered education savings plans ("**RESPs**") and deferred profit sharing plans

(“**DPSPs**”), each within the meaning of the Tax Act (other than a DPSP to which payments are made by Royal Bank or a corporation or partnership with which Royal Bank does not deal at arm’s length within the meaning of the Tax Act).

Notwithstanding the foregoing, if Notes are “prohibited investments” (as that term is defined in the Tax Act) for an RRSP, RRIF, TFSA, RDSP or RESP, the annuitant of the RRSP or RRIF, the holder of the TFSA or RDSP, or the subscriber of the RESP, as the case may be (each a “**Plan Holder**”), will be subject to a penalty tax as set out in the Tax Act. Notes will be prohibited investments for an RRSP, RRIF, TFSA, RDSP or RESP of a Plan Holder who has a “significant interest” (as defined in the Tax Act for purposes of the prohibited investment rules) in Royal Bank or who does not deal at arm’s length, within the meaning of the Tax Act, with Royal Bank. Investors should consult their own tax advisors in this regard.

RISK FACTORS

The Notes provide opportunities but may pose risks. You should carefully consider the risks involved in purchasing Notes before reaching a decision and you should discuss with your advisors the suitability of purchasing Notes in light of your particular investment objectives and after reviewing all available information, including the following:

Suitability – A purchase of Notes is not suitable for a person strictly looking for a guaranteed rate of return. The Notes will not constitute deposits that are insured under the *Canada Deposit Insurance Corporation Act*. We make no recommendation as to the suitability of the Notes for your investment purposes.

Only return in respect of the Fixed Interest payments may be payable – Other than the return provided by the Fixed Interest, it is uncertain how much return, if any, will be payable under the Notes. A holder may only receive the Fixed Interest and the \$100 Principal Amount of a Note on the Maturity Date.

The Payment Amount at maturity will depend on the performance of the Underlying Index – Subject to the occurrence of certain Extraordinary Events, return on the Notes at maturity, other than in respect of the final Fixed Interest payment, will be calculated based on the increase in the level of the RBC Asset Allocator 5% Risk Control Index. No assurance can be given that the level of the RBC Asset Allocator 5% Risk Control Index will increase. Noteholders are not entitled to any dividends that may be paid by an issuer of the securities underlying the Target Index.

The Underlying Index may not be successful in achieving the Volatility Target and may underperform the Target Index – The Underlying Index takes a variable exposure to the Target Index with the aim to achieve the Volatility Target by dynamically adjusting, on a daily basis, the Underlying Index's exposure to the Target Index and a notional cash component. The Underlying Index's exposure to the Target Index is calculated based on Historical Volatility and can be greater than 100% (but not greater than the Maximum Leverage), less than 100% (as low as zero), or equal to 100%. The Underlying Index's volatility targeting strategy and method of calculation (a) may not be the best way to target the Volatility Target or to measure volatility or Historical Volatility; (b) will not reflect the actual (most current) volatility of the Target Index due to the lag in using Historical Volatility to adjust its exposure to the Target Index; (c) may limit the ability of the Underlying Index to fully achieve the Volatility Target if achieving it would require a leverage factor in excess of the Maximum Leverage; (d) does not mean the Underlying Index will necessarily have a lower volatility or lower risk than the Target Index and may cause the Underlying Index to be more volatile than the Target Index when its exposure to the Target Index is leveraged (greater than 100%) when Historical Volatility decreases and falls below the Volatility Target; (e) does not mean the Underlying Index will outperform the Target Index or that it will have positive performance, even if it achieves the Volatility Target; (f) is designed to achieve the Volatility Target regardless of the direction of price movements in the market and therefore may cause overexposure and leveraged exposure to the Target Index in falling stock markets when Historical Volatility falls below the Volatility Target, causing the Underlying Index to increase its exposure to the Target Index above 100% to maintain the Volatility Target and experience lower returns than the Target Index, or underexposure and deleveraged exposure to the Target Index in rising stock markets when Historical Volatility rises above the Volatility Target, causing the Underlying Index to decrease its exposure to the Target Index below 100% to maintain the Volatility Target and experience lower returns than if full exposure to the Target Index was maintained; and (g) may cause the Underlying Index's exposure to the Target Index to be rebalanced into the notional cash component on any or all days during the term of the Notes. Notwithstanding that the name of the Underlying Index includes the phrase "Risk Control", the Underlying Index may decrease significantly more or increase significantly less than the Target Index.

Investing in the Notes is different than investing directly in the Components – Noteholders do not have an ownership interest or other interest in the Components. If an investor were to purchase the Components directly in accordance with the Asset Allocation Strategy, the investor may be exposed to a different return than through the Variable Return on the Notes. The Notes are not equivalent to a direct investment in the Components and do not entitle holders to any interest in such Components, including any right to receive dividends or other distributions. The closing level of the Underlying Index on March 30, 2022 was 1,433.864. As such, the Notes are subject to different risks than such a direct investment and any return payable under the Notes will not be identical to the return associated with such Components.

The Target Index may not be successful in delivering diverse and dynamic exposure regardless of market conditions and may underperform direct investments in the Components – The Target Index uses an Asset Allocation Strategy which relies on a momentum indicator to allocate exposure among the Components. The Asset Allocation Strategy does not rely on any subjective inputs or discretionary investment judgments by a portfolio manager in respect of the allocation of the Components in the Sub-Indices. The Asset Allocator Strategy (a) has not been designed to produce a sector neutral investment; (b) may not reduce exposure to certain Assets even if there is market volatility, or may not require a reallocation prior to periods of market volatility; (c) may cause the Sub-Indices to be over allocated towards Components that have negative performance or performance that is lower than other Components; and (d) may cause the return on the Target Index, and as a result, the Underlying Index and the Notes, to be limited to returns on any one of the Components (which include cash,

equities, fixed income and gold) and produce a systematically lower return for a period of time if the Sub-Indices are composed in whole or in part of cash or fixed income investments during a period of strong equity market performance.

Secondary Market – The Notes will not be listed on any stock exchange and there is no assurance that a secondary market for Notes will develop or be sustainable. RBC DS may, from time to time, purchase and sell Notes, but will not be obligated to do so. If RBC DS determines, in its sole discretion, to stop facilitating a secondary market for the Notes, holders of Notes may not be able to resell their Notes. If RBC DS offers to purchase Notes in connection with a secondary market transaction, there is no assurance that the purchase price will be the highest possible price available in any secondary market for the Notes and, in particular, any purchase price will be reduced by up to 1.00% of the Principal Amount if the Noteholder sells Notes within 180 days of the Issue Date. The resale price of Notes could be below the \$100 Principal Amount per Note. The value of the Notes in any secondary market will be affected by a number of complex and inter-related factors, including the level of the Underlying Index or the Target Index (and in this regard it should be noted that any trading value may increase and decrease at a different rate than the level (which may be negative) of the Underlying Index or the Target Index); the level of interest rates in Canada and the United States; the volatility or degree to which the price of the Components change; the number of remaining Fixed Interest payments; and the time remaining until maturity. The effect of any one factor may be offset or magnified by the effect of another factor.

Extraordinary Events – The occurrence of certain Extraordinary Events may delay the time at which the amount of any return is determined and may allow us the option of crystallizing the amount of return payable and (if positive) paying such amount before maturity. These include events that could have an impact on our ability to perform our obligations under the Notes or to hedge our position in respect of our obligation to make payments under the Notes. In these circumstances, Fixed Interest will remain payable on any remaining Fixed Interest Payment Dates and the amount of return other than Fixed Interest payable under the Notes, if any, will be subject to reduction to reflect the direct or indirect costs of disposing of, terminating, settling, liquidating or otherwise unwinding arrangements to hedge market exposure to the Underlying Index, the Target Index or the Components.

Potential conflicts of interest – We or our subsidiary, RBC DS (RBC DS is a wholly-owned subsidiary of the Royal Bank of Canada), will perform functions or engage in activities that could adversely impact on the value of the Notes, your ability to resell your Notes or the amount or timing of receipt of entitlements under the Notes. For example, Royal Bank and RBC DS may have dealings with one or more of the Components or the securities that comprise the Components, which dealings will not take into account the effect, if any, on the level of the Underlying Index or Noteholders' interests generally. While Royal Bank created the Target Index and the Underlying Index, it has entered into an index calculation agreement pursuant to which it has delegated all responsibility for the administration of the Target Index and the Underlying Index and the Royal Bank does not have any influence over the determination of the allocation of the components, the calculation of the level of the Underlying Index or the Target Index or the making of any adjustments to the methodology of these indices. Instead, all such administration, determinations, calculations and adjustments will be made independently by the Index Sponsor. In addition, except in unusual circumstances we or RBC DS, as our Calculation Agent, will be responsible for determining the amounts of the return payable under the Notes, including the amount of any Alternative Variable Return payable after the occurrence of an Extraordinary Event, and may exercise judgment and discretion in relation to the calculations, determinations, functions and activities undertaken in respect of the Notes from time to time. Royal Bank's and RBC DS' calculations and determinations in respect of the Notes will, absent manifest error, be final and binding on holders of Notes. Consequently, potential conflicts between the interests of Noteholders and our interests may arise.

Fixed Interest payments – Fixed Interest will only be payable for each Interest Period, resulting in a maximum return provided by the Fixed Interest of \$4.50 per Note, or 1.50% of the Principal Amount for each Interest Period that the Notes are outstanding.

Credit Risk – The Notes will evidence deposit liabilities of Royal Bank (credit ratings: Moody's Aa1; Standard & Poor's AA-; DBRS AA) and will rank equally and rateably with all other deposit liabilities of Royal Bank and by their terms will be fungible. **Noteholders will not have the benefit of any insurance under the provisions of the *Canada Deposit Insurance Corporation Act*.** The repayment of a Noteholder's Principal Amount, the payment of Fixed Interest and the payment of the Variable Return or Alternative Variable Return, as the case may be, if any, are subject to the creditworthiness of Royal Bank.

DEFINITIONS

The following capitalized terms are used frequently in this Information Statement and have the respective meanings set forth below:

“**Alternative Variable Return**” has the meaning ascribed thereto under “*Payments Under the Notes – Extraordinary Events – Payment Due to an Extraordinary Event*”.

“**Base Level**” has the meaning ascribed thereto under “*Payments Under the Notes – Calculation of Percentage Change*”.

“**Business Day**” means a day on which commercial banks are open for business and able to effect transactions in foreign exchange and foreign currency deposits in Toronto, Canada and a day on which book-entry transfers may be effected through CDS. If any date on which any action is otherwise required to be taken in respect of the Notes is not a Business Day, the date on which such action shall be taken shall, except as otherwise indicated, be the next following Business Day and, if the action involves payment of any amount, no interest or other compensation shall be paid as a result of any such delay.

“**Calculation Agent**” means the calculation agent for the Notes appointed by Royal Bank from time to time. The Calculation Agent initially will be RBC Dominion Securities Inc., whose address is P.O. Box 50, Royal Bank Plaza, 2nd Floor, South Tower, Toronto, Ontario, Canada M5J 2W7; Attention: Global Equity Derivatives.

“**CDIC**” means Canada Deposit Insurance Corporation.

“**CDS**” means CDS Clearing and Depository Services Inc. and its successors.

“**CRA**” means the Canada Revenue Agency.

“**Components**” has the meaning ascribed thereto under “*Summary*”.

“**Early Trading Charge**” has the meaning ascribed thereto under “*Related Matters – Secondary Market*”.

“**Exchange Day**” means, in respect of the Underlying Index, a day which is (or, but for the occurrence of an Extraordinary Event, would have been) a trading day on each of the Principal Exchanges and Related Exchanges for the securities of the Components or related contracts, options or instruments, including a day on which trading on such an exchange is scheduled to close prior to its regular closing time.

“**Extraordinary Event**” means any event, circumstance or cause which Royal Bank determines has or will have a material adverse effect on the ability of Royal Bank to perform its obligations under the Notes or to hedge its position in respect of its obligation to make payment of amounts owing thereunder, including as a result of any of Royal Bank’s internal policies, and more specifically includes the following events to the extent that they have such effect:

- (a) the occurrence or existence on any Exchange Day during the one-half hour period that ends at the close of trading of any suspension of or limitation on trading (by reason of movements in price exceeding limits permitted by the relevant Principal Exchange or otherwise) on the relevant Principal Exchange of the Components or a general limitation on prices for such Components on any Principal Exchange;
- (b) the closure on any Exchange Day (or a day that would be an Exchange Day) of the Principal Exchange or Related Exchange prior to its scheduled closing time unless such earlier closing time is announced by such exchange at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such exchange for such day and (ii) the submission deadline for orders to be entered into such exchange’s system for execution at the close of trading on such day;
- (c) any event (other than a closure described in (b)) that disrupts or impairs (as determined by Royal Bank) the ability of market participants in general (i) to effect transactions, or obtain market values, on the Principal Exchange or Related Exchange or (ii) to effect transactions in, or obtain market values for, futures, forward or options contracts on the Principal Exchange or Related Exchange;
- (d) the failure of the Principal Exchange or Related Exchange to open for trading during its regular trading session on any Exchange Day (or a day that would be an Exchange Day);
- (e) a suspension, absence or material limitation of trading in futures contracts, forward contracts or options contracts related to the Underlying Index, the Target Index or the Components on any relevant Principal Exchange or Related Exchange or a limitation on trading in futures, forward or options contracts on any relevant Principal Exchange or Related Exchange on any one day by reason of movements in prices that exceed the level permitted by such exchanges;

- (f) the enactment, publication, decree or other promulgation of any statute, regulation, rule or order of any court or other government authority which would make it unlawful or impracticable for Royal Bank to perform its obligations under the Notes or for dealers to execute, maintain or modify a hedge in a position in respect of the Underlying Index or the Target Index;
- (g) the taking of any action by any governmental, administrative, legislative or judicial authority or power of Canada or any country, or any political subdivision thereof, which has a material adverse effect on the financial markets of Canada or a country in which any applicable Principal Exchange or Related Exchange is located;
- (h) any outbreak or escalation of hostilities or other national or international calamity or crisis (including, without limitation, natural calamities) which has or would have a material adverse effect on the ability of Royal Bank to perform its obligations under the Notes or of a dealer to execute, maintain or modify a hedge of a position with respect to the Underlying Index or the Target Index or a material and adverse effect on the economy of Canada or the trading of securities, contracts or other instruments generally on a Principal Exchange or Related Exchange; or
- (i) a Hedging Event.

For the purpose of determining whether an Extraordinary Event exists at any time, a limitation on the hours or number of days of trading shall not constitute an Extraordinary Event if it results from an announced change in the regular business hours of a Principal Exchange or a Related Exchange, and an “absence” or “limitation on trading” of or on such Principal Exchange or Related Exchange will not include any time when such Principal Exchange or Related Exchange itself is closed for trading under ordinary circumstances.

“**Final Valuation Date**” means March 31, 2025.

“**Fixed Interest**” has the meaning ascribed thereto under “*Summary*”.

“**Fixed Interest Payment Date**” has the meaning ascribed thereto under “*Summary*”.

“**Global Note**” has the meaning ascribed thereto under “*Related Matters – Registration*”.

“**Hedging Event**” means the occurrence of an event that has a material adverse effect on Royal Bank’s ability to place, maintain or modify any hedge, including without limitation:

- (a) the adoption of or any change in any applicable law or regulation (including tax law), or the promulgation or any change in the interpretation by any court, tribunal or regulatory authority of any applicable law or regulation (including by a taxing authority);
- (b) the termination or material amendment of any hedging contract with a third party;
- (c) the inability of Royal Bank after using commercially reasonable efforts, to acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset for hedging its price risk, or realize, recover or remit the proceeds of any such transaction or asset, including as a result of the application of Royal Bank’s internal policies; or
- (d) a material increase in the amount of tax, duty, expense or fee to acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset for hedging its price risk or realize, recover or remit the proceeds of any such transaction or asset.

“**Historical Volatility**” has the meaning ascribed thereto under “*Summary*”.

“**Holder**” has the meaning ascribed thereto under “*Canadian Federal Income Tax Considerations*”.

“**Index Sponsor**” means Solactive AG and its successors.

“**Initial Valuation Date**” means March 30, 2022.

“**Interest Period**” has the meaning ascribed thereto under “*Summary*”.

“**Issue Date**” means on or about April 19, 2022.

“**LEOS®**” means LEOS (Liquid Equity Option-linked noteS)®.

“**Maturity Date**” means on or about April 3, 2025.

“**Maximum Leverage**” has the meaning ascribed thereto under “*Summary*”.

“**Nominee**” means the nominee appointed from time to time by CDS, initially CDS & CO.

“**Non-Resident Holder**” has the meaning ascribed thereto under “*Canadian Federal Income Tax Considerations*”.

“**Note**” or “**Notes**” has the meaning ascribed thereto under “*Summary*”.

“**Noteholders**” has the meaning ascribed thereto under “*Related Matters – Registration*”.

“**Participating Debt Interest**” has the meaning ascribed thereto under “*Canadian Federal Income Tax Considerations*”.

“**Participation Rate**” has the meaning ascribed thereto under “*Payments Under the Notes – Calculation of Variable Return*”.

“**Paying and Transfer Agent**” means the paying and transfer agent for the Notes appointed by us from time to time. The Paying and Transfer Agent will initially be RBC Dominion Securities Inc. whose address is P.O. Box 50, Royal Bank Plaza, 6th Floor, South Tower, Toronto, Ontario, Canada M5J 2W7; Attention: National Operations.

“**Payment Amount**” has the meaning ascribed thereto under “*Payments Under the Notes – Payment Amount on Maturity*”.

“**Percentage Change**” has the meaning ascribed thereto under “*Payments Under the Notes – Calculation of Percentage Change*”.

“**Plan Holder**” has the meaning ascribed thereto under “*Canadian Federal Income Tax Considerations*”.

“**Principal Amount**” means \$100 per Note.

“**Principal Exchange**” means, in relation to the Underlying Index, any stock exchange or quotation system on which the Components are listed.

“**Proposals**” has the meaning ascribed thereto under “*Canadian Federal Income Tax Considerations*”.

“**RBC DS**” means RBC Dominion Securities Inc. and its successors and assigns.

“**Regulations**” has the meaning ascribed thereto under “*Canadian Federal Income Tax Considerations*”.

“**Related Exchange**” means, in relation to the Underlying Index, is an exchange in respect of which futures contracts, forward contracts or options contracts are traded in respect of the Underlying Index, the Target Index or the Components underlying the Target Index and through which Royal Bank expects to effect, directly or indirectly, transactions to hedge its position in respect of the Notes.

“**Resident Holder**” has the meaning ascribed thereto under “*Canadian Federal Income Tax Considerations*”.

“**Royal Bank**” means Royal Bank of Canada and its successors and assigns.

“**Settlement Level**” has the meaning ascribed thereto under “*Payments Under the Notes – Calculation of Percentage Change*”.

“**Sub-Index**” or “**Sub-Indices**” have the meaning ascribed thereto under “*Summary Information Regarding the Underlying Index and the Target Index – Sub-Indices and Their Components*”.

“**Target Index**” means the RBC Asset Allocator Index.

“**Tax Act**” has the meaning ascribed thereto under “*Canadian Federal Income Tax Considerations*”.

“**Third Party**” has the meaning ascribed thereto under “*Related Matters – Discontinuance or Modification of the Underlying Index*”.

“**Underlying Index**” means the RBC Asset Allocator 5% Risk Control Index.

“**Variable Return**” has the meaning ascribed thereto under “*Payments Under the Notes – Calculation of Variable Return*”.

“**Volatility Target**” has the meaning ascribed thereto under “*Summary*”.

SCHEDULE A – DISCLOSURE FOR SALES IN PERSON OR BY TELEPHONE

Term of the Notes

The Notes mature and the Principal Amount of the Notes will be repaid on or about April 3, 2025 for a term to maturity of about 3 years. All amounts payable in respect of the Notes will be made available by Royal Bank in book entry form through CDS.

How Return on the Notes is Calculated

The Underlying Index takes a variable exposure to the RBC Asset Allocator Index (the “**Target Index**”) with the aim to achieve an annualized volatility of less than or equal to 5.00% (the “**Volatility Target**”) by dynamically adjusting, on a daily basis, the Underlying Index’s exposure to the Target Index, with the remaining exposure rebalanced into a notional cash component. The Underlying Index’s exposure to the Target Index is calculated based on the ratio of the Volatility Target and the Target Index’s Historical Volatility (as defined below), capped by a maximum leverage of 150% (the “**Maximum Leverage**”). Historical volatility is determined by selecting the greater of either a short-term or a long-term measure of volatility, which are calculated using the Target Index’s historical returns over the preceding 20 days and 60 days, respectively (“**Short-Term Volatility**” and “**Long-Term Volatility**”, respectively, and together, “**Historical Volatility**”). If Historical Volatility decreases and falls below the Volatility Target, the Underlying Index will increase its exposure to the Target Index above 100%, up to the Maximum Leverage, in an attempt to maintain the Volatility Target. If Historical Volatility increases and rises above the Volatility Target, the Underlying Index will decrease its exposure to the Target Index below 100%, in an attempt to maintain the Volatility Target, resulting in an additional notional cash position. Therefore, the Underlying Index’s exposure to the Target Index can be greater than 100% (but not greater than the Maximum Leverage), less than 100% (as low as zero), or equal to 100%. Notwithstanding that the name of the Underlying Index includes the phrase “Risk Control”, the Underlying Index may decrease significantly more or increase significantly less than the Target Index. **For the avoidance of doubt, the return on the Notes is linked to the Underlying Index and is not linked to the Target Index.**

The Target Index is an excess return index that reflects the price changes of certain components, consisting of equities, bonds, gold and cash. The level of the Target Index includes the funding costs associated with the purchase of the components in the Sub-Indices (as defined below). The Target Index averages the performance of 12 sub-indices (“**Sub-Indices**”) and is rebalanced equally between the Sub-Indices once a year. Each Sub-Index is reconstituted in a different calendar month, once a year. At the time of reconstitution in each calendar month, the applicable Sub-Index is reconstituted based on an asset allocation strategy. This strategy consists of allocating assets and weighting the Sub-Indices one month prior to the annual reconstitution day for the applicable Sub-Index based on the 11-month return of each asset (being either equities, bonds or gold). If each of the three assets underperform the cash index, each asset receives a 0% weight. If one of the three assets outperforms the cash index, that asset receives a 60% weight. If at least two of the three assets outperform the cash index, the best performing asset is assigned a 60% weight and the second best performing asset is assigned a 40% weight. If you would like further details regarding these adjustments and the methodology for the Target Index and its Sub-Indices, refer to the Index Sponsor’s website at www.solactive.com.

Fixed Interest on the Notes will be payable on each Fixed Interest Payment Date, in arrears, annually at a fixed interest rate of 1.50% of the Principal Amount per Note for each Interest Period. The Fixed Interest payments are not contingent on or related to the performance of the Underlying Index. The Notes are not equivalent to a direct investment in the components that comprise the Target Index and do not represent an interest in the Underlying Index, the Target Index or in the components that comprise the Target Index, and holders will have no right or entitlement to such components including, without limitation, redemption rights (if any), voting rights or rights to receive dividends or other distributions paid on those components. Other than the Fixed Interest which will be paid on each Fixed Interest Payment Date, return on the Notes, if any, will be calculated based on any increase in the level of the Underlying Index, measured from its official closing level on the Initial Valuation Date to its official closing level on the Final Valuation Date. If an Extraordinary Event occurs, Fixed Interest will remain payable on any remaining Fixed Interest Payment Dates. The closing level of the Underlying Index on March 30, 2022 was 1,433.864. As such, the Notes are subject to different risks than such a direct investment and any return payable under the Notes will not be identical to the return associated with such components.

Fees and Expenses

Selling agents who sell the Notes will receive an initial selling commission of 0.50% of the \$100 Principal Amount of each Note. This fee will not affect the amount of return payable under the Notes. If an Extraordinary Event occurs, we may incur expenses unwinding any hedge position in respect of our obligation to make payments under the Notes, which could reduce the amount of return otherwise payable on the Notes.

Risk Factors

Risks of owning the Notes include the following:

- the Notes may not be a suitable investment for all investors;
- return may be limited to 4.50% of the Principal Amount per Note over the term of the Notes;
- other than the return provided by the Fixed Interest, return will depend on the performance of the Underlying Index;
- returns on the Underlying Index may not reflect an index with an annualized volatility of less than or equal to 5.00%, may be lower than returns on the Target Index, may not be positive, or may be limited to the notional cash component;
- notwithstanding that the name of the Underlying Index includes the phrase “Risk Control”, the Underlying Index may decrease significantly more or increase significantly less than the Target Index;
- Noteholders have no direct ownership interest in the components comprising the Target Index;
- a secondary market for the Notes may not develop or be sustainable;
- the occurrence of an Extraordinary Event could affect the return (other than Fixed Interest), if any, payable on the Notes or result in a payment of Alternative Variable Return prior to maturity;
- we or RBC DS may engage in activities that could adversely impact the Notes;
- Fixed Interest will only be payable for each Interest Period, resulting in a maximum return provided by the Fixed Interest of \$4.50 per Note, or 1.50% of the Principal Amount for each Interest Period that the Notes are outstanding; and
- the repayment of a Noteholder’s Principal Amount, the payment of Fixed Interest and Variable Return or Alternative Variable Return, as the case may be, if any, are subject to the creditworthiness of Royal Bank. **Noteholders will not have the benefit of any insurance under the provisions of the *Canada Deposit Insurance Corporation Act*.**

Tax Considerations

Potential Canadian income tax consequences for investors in Notes are described in the Information Statement under “*Canadian Federal Income Tax Considerations*”.

Investors should, however, consider the following:

- Fixed Interest should be included in an individual Noteholder’s income as it becomes due;
- all other interest on the Notes (including Variable Return) should be included in an individual Noteholder’s income for the taxation year in which the amount of such interest becomes calculable; and
- any gain realized from the disposition of Notes likely will be included in income and likely will not give rise to a capital gain.

This summary is not intended to constitute, nor should it be relied upon as, tax advice to any particular Noteholder. All Noteholders should consult their own tax advisors with respect to their tax positions and the tax consequences of holding Notes.

Differences from Conventional Fixed Rate Investments

The Notes are different from conventional fixed rate investments. Other than the Fixed Interest payable on each Fixed Interest Payment Date, the Notes will not provide Noteholders with a regular income stream prior to maturity, and will not provide a return at maturity that is calculated by reference to a fixed or floating rate of interest that is specified prior to maturity. Unlike the return on many other deposit liabilities of Canadian banks and other fixed rate investments, the return on the Notes is uncertain in that if the Settlement Level of the Underlying Index does not increase over the term of the Notes, only the Fixed Interest will be payable on the Notes. There is no assurance that the level of the Underlying Index will increase over the term of the Notes and there is therefore no assurance that a Noteholder will receive any amount other than a fixed return of 1.50% of the Principal Amount per Note for each Interest Period during the term of the Notes and repayment of the Principal Amount at maturity.

Secondary Market

The Notes will not be listed on any stock exchange and there is no assurance that a secondary market for the Notes will develop or be sustainable. RBC DS has indicated that it intends to use its reasonable best efforts to establish and maintain an over-the-counter market for the Notes by making itself available as a purchaser of the Notes if and so long as RBC DS in its sole discretion believes that there is a reasonable likelihood that it will be able to sell such Notes at a profit or at no more than a nominal loss. An Early Trading Charge of up to 1.00% of the Principal Amount of a Note will be deducted from the amount received by a holder of Notes as sales proceeds if the Noteholder

sells Notes within 180 days of the Issue Date. Despite its intention to make such efforts, RBC DS reserves the right, without providing prior notice to Noteholders, to choose not to do so in its sole discretion.

Secondary Market Resales

The Principal Amount of each Note is guaranteed only if the Note is held until maturity. The resale of a Note by the investor in any secondary market could result in the investor receiving less than the Principal Amount invested.

Right of Cancellation

The investor will have the right to cancel any order to buy Notes within two Business Days after the later of (i) the day on which the agreement to purchase the Notes is entered into and (ii) the day on which this Information Statement is provided to the initial purchaser. The purchaser may exercise this right by contacting their investment advisor or RBC DS.

Suitability of the Notes for Investment Purposes

The Notes may be suitable for:

- investors who want fixed interest payments and to protect their principal investment until maturity;
- investors looking to earn a fixed rate return with the potential to earn an enhanced return over fixed rate investments and who are prepared to assume the risks associated with an investment in the Underlying Index, which aims to achieve an annualized volatility of less than or equal to 5.00% by dynamically adjusting, on a daily basis, the Underlying Index's exposure to the Target Index and a notional cash component; and
- investors with a long-term investment horizon who are prepared to hold the Notes until maturity.

Non-CDIC Protected

The Notes will not constitute deposits that are insured under the *Canada Deposit Insurance Corporation Act*.

No Early Redemption by Royal Bank

The Notes will not be redeemable by Royal Bank before the Maturity Date.

Availability of Information

Detailed information about the Notes, including a copy of the Information Statement, will be posted at www.rbcnotes.com and will be provided in writing on request from RBC DS at (800) 280-4434.

Certain additional information regarding the Notes will also be provided on an ongoing basis at www.rbcnotes.com, including (i) the most recent bid price for the Notes and any applicable Early Trading Charge, and/or (ii) the last available measure that would be used to determine the Variable Return.

Amendments to the Notes

The Global Note may be amended without the consent of the Noteholders if in our reasonable opinion the amendment would not materially and adversely affect the rights of the Noteholders. In other cases, the Global Note may be amended if the amendment is approved by the Noteholders representing not less than 66 2/3% of the outstanding aggregate principal amount of the Notes represented at such vote.

Potential Conflicts of Interest

Royal Bank or its subsidiary, RBC DS, will perform functions or engage in activities in the course of their normal respective business operations that could adversely impact the value of the Notes, your ability to resell your Notes or the amount or timing of receipt of entitlements under the Notes.

While Royal Bank created the Target Index and the Underlying Index, it has entered into an index calculation agreement pursuant to which it has delegated all responsibility for the administration of the Target Index and the Underlying Index and the Royal Bank does not have any influence over the determination of the allocation of the components, the calculation of the level of the Underlying Index or the Target Index or the making of any adjustments to the methodology of these indices. Instead, all such administration, determinations, calculations and adjustments will be made independently by the Index Sponsor.

Royal Bank or RBC DS, as Calculation Agent and/or as market maker for the Notes, may have financial interests that differ from and may be adverse to those of the Noteholders.
