Pricing Supplement to Short Form Base Shelf Prospectus dated March 25, 2022, the Prospectus Supplement thereto dated March 28, 2022, as supplemented November 11, 2022 and March 2, 2023 and the Prospectus Supplement thereto dated March 28, 2022, as supplemented November 11, 2022 and March 2, 2023

No securities regulatory authority has expressed an opinion about these securities and it is an offence to claim otherwise.

This pricing supplement together with the short form base shelf prospectus dated March 25, 2022, the prospectus supplement dated March 28, 2022 and the prospectus supplement dated March 28, 2022, to which it relates, as amended or supplemented, and each document incorporated by reference into such prospectus, constitutes a public offering of these securities only in those jurisdictions where they may be lawfully offered for sale and therein only by persons permitted to sell such securities.

The securities to be issued hereunder have not been, and will not be, registered under the United States Securities Act of 1933, as amended and, subject to certain exceptions, may not be offered, sold or delivered, directly or indirectly, in the United States of America or for the account or benefit of U.S. persons.

Royal Bank of Canada
Senior Note Program
Unit Linked Securities
Maximum \$20,000,000 (200,000 Securities)
RBC iShares® S&P/TSX Capped Energy Index ETF Callable Yield
11.25% Securities (CAD), Series 768, F-Class
Due June 30, 2026
Non-Principal Protected Securities

June 23, 2023

Royal Bank of Canada (the "Bank") is offering up to \$20,000,000 of RBC iShares® S&P/TSX Capped Energy Index ETF Callable Yield 11.25% Securities (CAD), Series 768, F-Class (which we refer to as the "Securities" for the purpose of this pricing supplement only and not for the purpose of the "base shelf prospectus" as defined below), designed for investors who are prepared and can afford to take the risk that they will lose substantially all of their investment, that regular Interest Payments (defined herein) will not be made on the Securities, and that the Securities will be redeemed early, because they believe that the Closing Price (defined herein) of the units (the "Underlying Securities" and each, an "Underlying Security") of the iShares® S&P/TSX Capped Energy Index ETF (the "ETF") will be greater than or equal to the Coupon Barrier Price (defined herein) but less than the Autocall Redemption Price (defined herein) on each Observation Date (defined herein). Payment at maturity (if no early redemption has occurred) will be based on the price performance of the Underlying Securities. Holders of the Securities will also receive Interest Payments payable quarterly on each Interest Payment Date (defined herein) each at a fixed amount of \$2.8125 per Security if there is a Digital Payout Event (defined herein) on the immediately preceding Observation Date. The return on the Securities is limited; even if a Digital Payout Event occurs on each Observation Date, the Securities are not redeemed prior to maturity and the Final Closing Price is greater than or equal to the Protection Barrier Price, the maximum return on the Securities would be equal to \$33.75 per Security.

The Underlying Securities will be used solely as a reference to calculate the amount payable on the Securities. Holders of Securities do not have an ownership interest or other interest (including, without limitation, redemption rights (if any), voting rights or rights to receive dividends or other distributions) in any of the Underlying Securities or in the component securities comprising the ETF's investment portfolio and will only have a right against the Bank to be paid any amounts due under the Securities.

The initial estimated value of the Securities as of June 15, 2023 was \$95.86 per Security, which is less than the price to the public and is not an indication of the actual profit to the Bank or its affiliates. The actual value of the Securities at any time will reflect many factors, cannot be predicted with accuracy, and may be less than this amount. We describe our determination of the initial estimated value in more detail below. See "Risk Factors" and "Preparation of Initial Estimated Value".

The Securities are described in this pricing supplement delivered together with our short form base shelf prospectus dated March 25, 2022 (the "base shelf prospectus"), the prospectus supplement establishing our Senior Note Program dated March 28, 2022, as supplemented November 11, 2022 and March 2, 2023 (the "program supplement") and a prospectus supplement which generally describes equity, unit and debt linked securities that we may offer under our Senior Note Program dated March 28, 2022, as supplemented November 11, 2022 and March 2, 2023 (the "product supplement").

The Securities are not fixed income securities and are not designed to be alternatives to fixed income or money market instruments. The Securities are structured products that possess downside risk.

The Securities will not constitute deposits insured under the Canada Deposit Insurance Corporation Act.

An investment in the Securities involves risks. An investment in the Securities is not the same as a direct investment in the Underlying Securities and investors have no rights with respect to the Underlying Securities, the ETF or the securities comprising the Tracked Index (defined herein). The Securities are considered to be "specified derivatives" under applicable Canadian securities laws. If you purchase Securities, you will be exposed to changes in the price of the Underlying Securities and fluctuations in interest rates, among other factors. Price changes may be volatile and an investment in the Securities may be considered to be

speculative. Since the Securities are not principal protected and the Principal Amount will be at risk, you could lose substantially all of your investment. See "Risk Factors".

Price: \$100 per Security

Minimum Subscription: \$5,000 (50 Securities)								
	Price to public	Selling Commissions and Dealer's fee <sup>(1)</sup>	Net proceeds to the Bank					
Per Security	\$100.00	\$0.00	\$100.00					

(1) No sales commission will be paid in connection with this issuance of Securities. An agency fee will be paid, from the Bank's own funds, to Desjardins Securities Inc. in an amount up to 0.15% of the Principal Amount of the Securities issued under this offering for acting as independent agent.

\$0.00

\$20,000,000

\$20,000,000

(2) Reflects the maximum offering size of the Securities. There is no minimum amount of funds that must be raised under this offering. This means that the issuer could complete this offering after raising only a small proportion of the offering amount set out above.

The Securities are offered severally by RBC Dominion Securities Inc. ("RBC DS") and Desjardins Securities Inc. (collectively, the "Dealers") as agents under a dealer agreement dated March 28, 2022, as amended or supplemented from time to time. RBC DS is our wholly owned subsidiary. Consequently, we are a related and connected issuer of RBC DS within the meaning of applicable securities legislation. See "Dealers" in this pricing supplement and "Plan of Distribution" in the program supplement.

The Securities will not be listed on any stock exchange. There is no assurance that a secondary market for the Securities will develop or be sustained. See "Secondary Market for Securities", "Description of the Securities—Calculation Agent" and "Risk Factors" in the program supplement and "Secondary Market" in this pricing supplement.

#### **Bank Trademarks**

Total(2)

Lion & Globe symbol is a registered trademark of Royal Bank of Canada.

#### **Prospectus for Securities**

Securities described in this pricing supplement will be issued under our Senior Note Program and will be unsecured, unsubordinated debt obligations. The Securities are Senior Debt Securities (as defined in the base shelf prospectus referred to below) and are described in four separate documents: (1) the base shelf prospectus, (2) the program supplement, (3) the product supplement, and (4) this pricing supplement, all of which collectively constitute the "prospectus" for the Securities. See "Prospectus for Securities" in the program supplement.

#### **Documents Incorporated by Reference**

This pricing supplement is deemed to be incorporated by reference into the base shelf prospectus solely for the purpose of our Senior Note Program and the Securities issued hereunder. Other documents are also incorporated or deemed to be incorporated by reference into the base shelf prospectus and reference should be made to the base shelf prospectus for full particulars.

# **Marketing Materials**

The version of the summary for the Securities that was filed with the securities commissions or similar regulatory authorities in each of the provinces and territories of Canada as "marketing materials" (as defined in National Instrument 41-101 – General Prospectus Requirements) on June 23, 2023 is deemed to be incorporated by reference into the base shelf prospectus solely for the purpose of our Senior Note Program and the Securities issued hereunder. Any version of marketing materials filed with the securities commission or similar regulatory authority in each of the provinces and territories of Canada in connection with this offering after the date hereof but prior to the termination of the distribution of the Securities under this pricing supplement (including any amendments to, or an amended version of, the marketing materials) is deemed to be incorporated by reference herein and in the base shelf prospectus solely for the purpose of our Senior Note Program and the Securities issued hereunder. Any such marketing materials are not part of this pricing supplement or the base shelf prospectus to the extent that the contents of the marketing materials have been modified or superseded by a statement contained in an amendment to this pricing supplement.

#### **Caution Regarding Forward-Looking Statements**

From time to time, we make written or oral forward-looking statements within the meaning of certain securities laws, including the "safe harbour" provisions of the United States Private Securities Litigation Reform Act of 1995 and any applicable Canadian securities legislation. We may make forward-looking statements in the base shelf prospectus and in the documents incorporated by reference therein, in the program supplement, in the product supplement, in this pricing supplement, in other filings with Canadian regulators or the United States Securities and Exchange Commission, in other reports to shareholders, and in other communications. Forward-looking statements in, or incorporated by reference in, this prospectus include, but are not limited to, statements relating to our financial performance objectives, vision and strategic goals, the Economic, market and regulatory review and outlook section of our management's discussion and analysis for the three and six months periods ended or as at April 30, 2023 (the "Q2 2023 Management's Discussion and Analysis") and in the Economic, market and regulatory review and outlook section of our management's discussion and analysis for the year ended October 31, 2022 (the "2022 Management's Discussion and Analysis") for Canadian, U.S., U.K., European and global economies, the regulatory environment in which we operate, the impact from rising interest rates, the expected closing of the transaction involving HSBC Bank Canada, the expected closing of the transaction involving CACEIS and the risk environment including our credit risk, market risk, liquidity and funding risk, and includes our President and Chief Executive Officer's statements. The forwardlooking information contained in, or incorporated by reference in, this prospectus is presented for the purpose of assisting the holders of our securities and financial analysts in understanding our financial position and results of operations as at and for the periods ended on the dates presented, as well as our financial performance objectives, vision and strategic goals, and may not be appropriate for other purposes. Forward-looking statements are typically identified by words such as "believe", "expect", "foresee", "forecast", "anticipate", "intend", "estimate", "goal", "commit", "target", "objective", "plan" and "project" and similar expressions of future or conditional verbs such as "will", "may", "might", "should", "could" or "would".

By their very nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties, which give rise to the possibility that our predictions, forecasts, projections, expectations or conclusions will not prove to be accurate, that our assumptions may not be correct, that our financial performance, environmental & social or other objectives, vision and strategic goals will not be achieved and that our actual results may differ materially from such predictions, forecasts, projections, expectations or conclusions. We caution readers not to place undue reliance on these statements as a number of risk factors could cause our actual results to differ materially from the expectations expressed in such forward-looking statements. These factors – many of which are beyond our control and the effects of which can be difficult to predict – include: credit, market, liquidity and funding, insurance, operational, regulatory compliance (which could lead to us being subject to various legal and regulatory proceedings, the potential outcome of which could include regulatory restrictions, penalties and fines), strategic, reputation, competitive, model, legal and regulatory environment, systemic risks and other risks discussed in the risk sections of the 2022 Management's Discussion and Analysis and the Risk management section of the Q2 2023 Management's Discussion and Analysis incorporated by reference herein; including business and economic conditions in the geographic regions in which we operate, Canadian housing and household indebtedness, information technology and

cyber risks, geopolitical uncertainty, environmental and social risk (including climate change), digital disruption and innovation, privacy, data and third-party related risks, regulatory changes, culture and conduct risks, the effects of changes in government fiscal, monetary and other policies, tax risk and transparency, and the emergence of widespread health emergencies or public health crises such as pandemics and epidemics, including the COVID-19 pandemic and its impact on the global economy, financial market conditions and our business operations, and financial results, condition and objectives. Additional factors that could cause actual results to differ materially from the expectations in such forward-looking statements can be found in the risk sections of the 2022 Management's Discussion and Analysis.

We caution that the foregoing list of risk factors is not exhaustive and other factors could also adversely affect our results. When relying on our forward-looking statements to make decisions with respect to us or the Securities, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Material economic assumptions underlying the forward-looking statements contained in this prospectus are set out in the Economic, market and regulatory review and outlook section and for each business segment under the Strategic priorities and Outlook sections in our 2022 Management's Discussion and Analysis, as updated by the Economic, market and regulatory review and outlook section of the Q2 2023 Management's Discussion and Analysis. Except as required by law, we do not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by us or on our behalf.

Additional information about these and other factors can be found in the risk sections of the 2022 Management's Discussion and Analysis and in the Risk management section of the Q2 2023 Management's Discussion and Analysis incorporated by reference in this prospectus.

# Royal Bank of Canada Senior Note Program Unit Linked Securities

# RBC iShares® S&P/TSX Capped Energy Index ETF Callable Yield 11.25% Securities (CAD), Series 768,

# F-Class

# Due June 30, 2026 Non-Principal Protected Securities

**Issuer:** Royal Bank of Canada (the "**Bank**")

**Dealers:** RBC Dominion Securities Inc. ("**RBC DS**") and Desjardins Securities Inc.

Desjardins Securities Inc., a dealer to which we are neither related nor connected, participated in the due diligence activities performed by the Dealers in respect of the offering, but did not participate in the structuring and pricing of the offering or the calculation of the initial estimated value of the Securities. See "Plan of Distribution"

in the program supplement.

RBC iShares<sup>®</sup> S&P/TSX Capped Energy Index ETF Callable Yield 11.25% Securities

(CAD), Series 768, F-Class due June 30, 2026.

Objective of the Securities: The Securities have been designed for investors who are prepared and can afford to

take the risk that they will lose substantially all of their investment, that regular Interest Payments (defined below) will not be made on the Securities, and that the Securities will be redeemed early, because they believe that the Closing Price (defined below) will be greater than or equal to the Coupon Barrier Price (defined below) but less than the Autocall Redemption Price (defined below) on each Observation Date (defined below) and that the Final Closing Price (defined below) will be greater than or equal to the Protection Barrier Price (defined below). Holders of the Securities will receive an Interest Payment on each Interest Payment Date (defined below) for which a Digital Payout Event (defined below) occurred on the immediately preceding Observation

Date.

**Issue Price:** The Securities will be issued at a price equal to their Principal Amount (defined

below).

**Minimum Investment:** 50 Securities or \$5,000.

**Issue:** 

**Denomination:** Securities are issuable in denominations of \$100 (the "**Principal Amount**") and in

minimum increments of \$100.

**Issue Date:** June 30, 2023 or such other date as may be agreed to by the Bank and the Dealers.

**Issue Size:** The maximum issue size will be an aggregate amount of \$20,000,000.

Maturity Date: June 30, 2026 (approximately a three-year term), subject to earlier redemption on an

Autocall Redemption Event (defined below) or earlier repayment in full on an Extraordinary Event. See "Description of the Equity, Unit and Debt Linked Securities

- Maturity Date and Amount Payable" in the product supplement.

Principal at Risk Securities: All but 1% of the Principal Amount of the Securities is fully exposed. You could lose

substantially all of your investment. See "Description of the Equity, Unit and Debt Linked Securities — Principal at Risk Securities" and "Risk Factors" in the product

supplement.

Underlying Securities: The return on the Securities is linked to the price performance (excluding any

dividends and other distributions) of the units (the "Underlying Securities" and each, an "Underlying Security") of the iShares® S&P/TSX Capped Energy Index ETF (the

"ETF").

Securities do not represent an interest in the Underlying Securities or in the component securities comprising the ETF's investment portfolio. The ETF invests primarily in and holds the securities of the constituents of the S&P/TSX Capped Energy Index (the "Tracked Index"). Holders of the Securities will have no right or entitlement to the Underlying Securities, the ETF or the securities comprising the Tracked Index,

including, without limitation, redemption rights (if any), voting rights or rights to receive dividends or other distributions paid on any of such securities (the annual dividend yield on the Underlying Securities for the ETF as of June 15, 2023 was 4.171%, representing an aggregate dividend yield of approximately 13.042% compounded annually over the approximately three-year term, on the assumption that the dividend yield remains constant). There is no requirement for the Bank to hold any interest in the Underlying Securities or in the securities comprising the Tracked Index. This pricing supplement has been prepared for the sole purpose of assisting prospective investors in making an investment decision with respect to the Securities. This pricing supplement relates only to the Securities offered hereby and does not relate to the Underlying Securities, the ETF and/or the Tracked Index. The Bank and the Dealers have not verified the accuracy or completeness of any information pertaining to the ETF or the Tracked Index or determined whether there has been any omission by the manager of the ETF or the Tracked Index Sponsor (defined in the product supplement) to disclose any facts, information or events which may have occurred prior to or subsequent to the date as of which any information has been furnished by the manager of the ETF or the Tracked Index Sponsor which may affect the significance or accuracy of such information. Neither the Bank nor any Dealer makes any representation that such publicly available documents or any other publicly available information regarding the ETF, the Tracked Index, the manager of the ETF or the Tracked Index Sponsor are accurate or complete. Prospective investors should independently investigate the ETF, the Tracked Index, the manager of the ETF and the Tracked Index Sponsor and decide whether an investment in the Securities is appropriate. Neither the manager of the ETF nor the Tracked Index Sponsor have participated in the preparation of this pricing supplement and the Securities are not in any way sponsored, endorsed, sold or promoted by the manager of the ETF or the Tracked Index Sponsor. See "Description of the Equity, Unit and Debt Linked Securities – Underlying Securities and Underlying Security Issuers" in the product supplement.

The decision to offer the Securities pursuant to this supplement will have been taken independently of any decision by the Bank to purchase the Underlying Securities in the primary or secondary market. Except with respect to any hedging activities the Bank engages with respect to its obligations under the Securities, any decision by the Bank to purchase the Underlying Securities in the primary or in the secondary market will have been taken independently of the Bank's offering of the Securities pursuant to this supplement. The employees responsible for our Senior Note Program are not privy to any information regarding either primary or secondary market purchases of the Underlying Securities made by the Bank in connection with any primary distribution made by the ETF.

See "Description of the Equity, Unit and Debt Linked Securities – Underlying Securities and Underlying Security Issuers" in the product supplement. See Appendix A to this pricing supplement for summary information regarding the ETF.

The "Initial Closing Price" is the Closing Price (defined below) on the Initial Valuation Date (defined below), being \$14.62.

The "Initial Valuation Date" is June 15, 2023.

The "Protection Barrier Price" is 70.00% of the Initial Closing Price, being \$10.23.

The "Coupon Barrier Price" is 70.00% of the Initial Closing Price, being \$10.23.

The "Final Closing Price" is the Closing Price on June 15, 2026 (the "Final Valuation Date").

The "Closing Price" on any Exchange Day (defined in the product supplement) is equal to the official closing price of the Underlying Securities, as announced by the Toronto Stock Exchange (the "TSX"), on such Exchange Day. The official closing price of the Underlying Securities is available from other sources, such as Bloomberg; however, neither the Bank nor the Dealers make any representation as to the accuracy

**Initial Closing Price:** 

**Initial Valuation Date:** 

**Protection Barrier Price:** 

Coupon Barrier Price:

**Final Closing Price:** 

**Closing Price:** 

of such information and all calculations regarding the Closing Price will be made by the Calculation Agent.

**Observation Dates:** 

An "Observation Date" for the purposes of determining the amount of any Interest Payment will occur quarterly on the dates specified below in each year that the Securities are outstanding, from and including September 15, 2023 to and including June 15, 2026. If any such Observation Date is not an Exchange Day, it shall be postponed to the next succeeding Exchange Day.

Provided that the Securities are not redeemed by the Bank as described below, the Bank intends the Observation Dates to be:

 September 15, 2023
 December 15, 2023

 March 15, 2024
 June 17, 2024

 September 16, 2024
 December 16, 2024

 March 17, 2025
 June 16, 2025

 September 15, 2025
 December 15, 2025

 March 16, 2026
 June 15, 2026

**Interest Payment Dates:** 

The "Interest Payment Date" for an Interest Payment, if any, will occur quarterly on the dates specified below in each year that the Securities are outstanding, from and including September 20, 2023 to and including June 30, 2026.

Provided that the Securities are not redeemed by the Bank as described below, the Bank intends the Interest Payment Dates to be:

 September 20, 2023
 December 20, 2023

 March 20, 2024
 June 20, 2024

 September 19, 2024
 December 19, 2024

 March 20, 2025
 June 19, 2025

 September 18, 2025
 December 18, 2025

 March 19, 2026
 June 30, 2026

The final Interest Payment, if any, will be made on the earlier of the Autocall Redemption Date (defined below) (if applicable) and the Maturity Date.

Interest payments (the "Interest Payments" and each, an "Interest Payment"), if any, on the Securities will be payable on each Interest Payment Date, in arrears, at a fixed interest rate of 2.8125% quarterly ending on an Interest Payment Date (an "Interest Period") for each Interest Period in which a Digital Payout Event occurs on the Observation Date occurring in the Interest Period. On the basis of the foregoing, the interest on each \$100 Principal Amount of Securities for an Interest Period in which a Digital Payout Event has occurred would equal \$100 × 2.8125%.

Thus, if a Digital Payout Event occurs:

- (a) on each Observation Date in any twelve-month period, the amount of interest payable on each \$100 Principal Amount of Securities for that twelve-month period will be \$11.25;
- (b) on three out of the four Observation Dates in any twelve-month period, the amount of interest payable on each \$100 Principal Amount of Securities for that twelve-month period will be \$8.4375;
- (c) on two out of the four Observation Dates in any twelve-month period, the amount of interest payable on each \$100 Principal Amount of Securities for that twelve-month period will be \$5.625; and
- (d) on one out of the four Observation Dates in any twelve-month period, the amount of interest payable on each \$100 Principal Amount of Securities for that twelve-month period will be \$2.8125.

If a Digital Payout Event does not occur on the Observation Date during a particular Interest Period, no interest will be payable on the Securities for such Interest Period.

**Digital Payout Event:** 

A "Digital Payout Event" will occur if, on the relevant Observation Date, the Closing Price is greater than or equal to the Coupon Barrier Price. RBC DS intends to publish

**Interest Payments:** 

whether there has been a Digital Payout Event on each Observation Date on its website at www.rbcnotes.com.

# **Autocall Redemption Event:**

An "Autocall Redemption Event" will occur if the Closing Price on an Observation Date other than the first, second, third, fourth, fifth and last Observation Dates is greater than or equal to 100.00% of the Initial Closing Price (the "Autocall Redemption Price"). On the next succeeding Interest Payment Date following the occurrence of an Autocall Redemption Event (the "Autocall Redemption Date") the Securities will be redeemed for an amount equal to the Principal Amount thereof (the "Autocall Redemption Amount"). In addition to the Autocall Redemption Amount, an Interest Payment will be paid on the Autocall Redemption Date.

#### Payment at Maturity:

On the Maturity Date, if the Securities have not been previously redeemed, the amount payable (the "Final Redemption Amount") for each \$100 Principal Amount per Security will be equal to:

- (a) if the Final Closing Price is greater than or equal to the Protection Barrier Price, \$100; or
- (b) if the Final Closing Price is less than the Protection Barrier Price, an amount equal to the Index Return, but in any event not less than \$1.00.

As a result, the Final Redemption Amount will not be determinable before the Final Valuation Date. See "Risk Factors" below.

In addition to the Final Redemption Amount, an Interest Payment will be paid on the Maturity Date if a Digital Payout Event occurs on the Final Valuation Date.

**Index Return:** 

"Index Return" means  $100 \times (X_f / X_i)$ ,

where:

"X<sub>f</sub>" means the Final Closing Price, and "X<sub>i</sub>" means the Initial Closing Price.

**Sample Calculations:** 

See Appendix B to this pricing supplement for sample calculations of the Final Redemption Amount or Autocall Redemption Amount (in the event of an Autocall Redemption Event) and any Interest Payments payable on the Securities at or prior to (in the event of an Autocall Redemption Event) the Maturity Date.

**Issuer Credit Rating:** 

Moody's: Aa1 Standard & Poor's: AA-DBRS: AA

The Securities themselves have not been and will not be rated. See "Description of the Securities — Ratings" in the program supplement.

**Extraordinary Events:** 

Determination of the Closing Price, including the Final Closing Price, and the Final Redemption Amount may be postponed, or the Bank can accelerate determination of the Final Closing Price and the Final Redemption Amount and repay the Securities in full prior to their maturity, in certain circumstances. If an Extraordinary Event occurs then the Calculation Agent may, but is not required to, make such adjustments to any payment or other term of the Securities as it determines to be appropriate, acting in good faith, to account for the economic effect of such event on the Securities and determine the effective date of any such adjustment. See "Description of the Securities — Special Circumstances" in the program supplement and "Description of the Equity, Unit and Debt Linked Securities — Extraordinary Events" in the product supplement.

**Summary of Fees and Expenses:** 

No sales commission will be payable in connection with this issuance of Securities. The Bank will pay, from the Bank's own funds, an agency fee to Desjardins Securities Inc. in an amount up to 0.15% of the Principal Amount of the Securities issued under this offering for acting as independent agent. The agency fee is indirectly borne by holders of the Securities. There are no fees directly payable by a holder of Securities. See "Description of the Securities — Summary of Fees and Expenses" in the program supplement.

Fees Affecting Closing Price of Underlying Securities:

The Closing Price of the Underlying Securities will be net of the fees and expenses charged by or assumed by the ETF, which will therefore be indirectly assumed by holders of the Securities. Such fees and expenses include annual management fees payable by the ETF and to the trustee and/or investment adviser and other operating expenses of the ETF. See the disclosures of the fees and expenses in the ETF's continuous disclosure materials (which are not incorporated by reference herein).

For the year ended February 28, 2023, the management expense ratio, which includes the management fee payable by the ETF to BlackRock Asset Management Canada Limited (the "Adviser") and/or its affiliates for acting as trustee and/or manager of the ETF, represented an annual rate of 0.60% of the ETF's average daily net asset value during the year.

**Eligibility for Investment:** 

Eligible for RRSPs, RRIFs, RESPs, RDSPs, FHSAs, DPSPs and TFSAs. See "Eligibility for Investment" in Appendix C, including the summary of the "prohibited investment" rule.

**Risk Factors:** 

You should carefully consider all the information set out in this prospectus for any Securities in which you are considering investing. In particular, you should evaluate the risks described under "Risk Factors" in each of the base shelf prospectus and the product supplement, as well as the risks described below. The return on the Securities is unknown and subject to many variables, including interest rate fluctuations and changes in the price of the Underlying Securities. You should independently determine, with your own advisors, whether an investment in the Securities is suitable for you having regard to your own investment objectives and expectations.

Limited Upside Participation by the Securities

The return on the Securities is limited; even if the Closing Price is greater than the Coupon Barrier Price but less than the Autocall Redemption Price on each Observation Date and the Final Closing Price is greater than or equal to the Protection Barrier Price, the maximum return on the Securities would be equal to \$33.75 per Security. The Securities will not participate in any upside performance of the Underlying Securities.

Uncertain Return until Final Valuation Date

The return, if any, on the Securities will be uncertain until the Final Valuation Date, unless the Securities are called for redemption prior to the Final Valuation Date. Whether there is a return on the Securities will depend on the Closing Price on the Observation Dates and the Final Valuation Date. No Interest Payment will be made on an Interest Payment Date unless there is a Digital Payout Event on the immediately preceding Observation Date. There can be no assurance that the Securities will generate a positive return or that the objectives of the Securities will be achieved. Holders of the Securities may not be repaid the amount they invested in the Securities (other than \$1.00 per Security), depending on the price performance of the Underlying Securities. Historical price performance of the Tracked Index and the Underlying Securities should not be considered indications of the future price performance of the Tracked Index and the Underlying Securities, respectively. Investors should understand that the risk involved in this type of investment is greater than that normally associated with other types of investments.

Volatility May Affect the Return on or Trading Value of the Securities

Volatility is the term used to describe the size and frequency of price and/or market fluctuations. If the volatility, or anticipated volatility, of the Underlying Securities changes over the term of the Securities, the trading value of the Securities may be adversely affected. In addition, if the Closing Price on an Observation Date is less than the Coupon Barrier Price, you will not receive an Interest Payment on the relevant Interest Payment Date, and if the Final Closing Price is less than the Protection Barrier Price, the Final Redemption Amount will be reduced such that you will receive less than the Principal Amount on the Maturity Date. In periods of high volatility, the likelihood of an investor not receiving some or all of the Interest Payments or a return of the full Principal Amount of the Securities increases.

The Securities may be Redeemed prior to the Maturity Date

The Securities will be automatically redeemed by the Bank on the Autocall Redemption Date if the Closing Price on an Observation Date, other than the first, second, third, fourth, fifth and last Observation Dates, is greater than or equal to the Autocall Redemption Price. In such event, investors will receive an Autocall Redemption Amount equal to the Principal Amount of the Securities. If the Securities are redeemed by the Bank, investors will not be entitled to receive any further interest that they may have been entitled to receive if the Securities had not been redeemed by the Bank.

The Initial Estimated Value of the Securities Is Less than the Price to the Public and May not Reflect the Secondary Market Price, if any, of the Securities

The initial estimated value set forth on the cover page of this pricing supplement does not represent a minimum price at which the Bank, RBC DS or any of our affiliates would be willing to purchase the Securities in any secondary market (if any exists) at any time. If you attempt to sell the Securities prior to maturity, their market value may be lower than the initial estimated value and the price you paid for them. This is due to, among other things, changes in the price of the Underlying Securities and the inclusion in the price to the public of the agency fee, as well as an amount retained by the Bank to compensate it for the creation, issuance and maintenance of the Securities (which may or may not also include any costs of its hedging obligations thereunder). These factors, together with various market and economic factors over the term of the Securities, could reduce the price at which you may be able to sell the Securities in any secondary market and will affect the value of the Securities in complex and unpredictable ways. Even if there is no change in market conditions or any other relevant factors, the price, if any, at which you may be able to sell your Securities prior to maturity may be less than your original purchase price. The Securities are not designed to be short-term trading instruments. Accordingly, you should be able and willing to hold your Securities to maturity.

The Initial Estimated Value of the Securities Is an Estimate Only, Calculated as of the Time the Terms of the Securities Were Set

The initial estimated value of the Securities is based on the value of the Bank's obligation to make the payments on the Securities. The return on the Securities can be replicated by purchasing and selling a combination of financial instruments, such as call options and put options. The fair value of the financial instrument components that would replicate the return on the Securities is equal to the fair value of the Securities. The Bank's estimate is based on a variety of assumptions, which may include expectations as to dividends, interest rates, the Bank's internal funding rates and volatility, and the term to maturity and any earlier call date of the Securities. The Bank's internal funding rates may differ from the market rates for the Bank's conventional debt securities. These assumptions are based on certain forecasts about future events, which may prove to be incorrect. Other entities may value the Securities or similar securities at a price that is significantly different than the Bank does. The value of the Securities at any time after the date of this pricing supplement will vary based on many factors, including changes in market conditions, and cannot be predicted with accuracy. As a result, the actual value you would receive if you sold the Securities in the secondary market, if any, should be expected to differ materially from the initial estimated value of the Securities.

Preparation of Initial Estimated Value:

The Securities are debt securities of the Bank, the return on which is linked to the price performance of the Underlying Securities. In order to satisfy the Bank's payment obligations under the Securities, the Bank may choose to enter into certain hedging arrangements (which may include call options, put options or other derivatives) on the Issue Date which may or may not be with RBC DS or one of our other subsidiaries. The terms of these hedging arrangements, if any, take into account a number of factors, including the Bank's creditworthiness, interest rate movements, the volatility of the Underlying Securities, and the term to maturity and any earlier call date of the Securities.

The price of the Securities to the public also reflects the agency fee, as well as an amount retained by the Bank to compensate it for the creation, issuance and maintenance of the Securities (which may or may not also include any costs of its hedging obligations thereunder). The initial estimated value for the Securities shown on the cover page will therefore be less than their public offering price. See "Risk Factors – The Initial Estimated Value of the Securities Is Less than the Price to the Public and May not Reflect the Secondary Market Price, if any, of the Securities" above.

The Bank has adopted written policies and procedures for determining the fair value of Securities issued by it pursuant to the Senior Note Program. These policies and procedures include: (a) methodologies used for valuing each type of financial instrument component that can be used in combination to replicate the return of the Securities; (b) the methods by which the Bank will review and test valuations to assess the quality of the prices obtained as well as the general functioning of the valuation process; and (c) how to deal with conflicts of interest.

**Suitability for Investment:** 

You should consult with your advisors regarding the suitability of an investment in the Securities. The Securities may be suitable for:

- investors seeking an investment product with exposure to the Underlying Securities
- investors who believe that the Closing Price will be equal to or above the Coupon Barrier Price on each Observation Date
- investors who believe that the Final Closing Price will not be below the Protection Barrier Price
- investors who are willing and can afford to risk substantially all of the principal amount of their investment
- investors looking for the potential to earn a return linked to the price performance
  of the Underlying Securities and who are prepared to assume the risks associated
  with an investment linked to the price performance of the Underlying Securities
- investors with an investment horizon equal to the term to maturity of the Securities who are prepared to hold the Securities until maturity, but who are willing to assume the risk that the Securities will be redeemed prior to the Maturity Date if the Closing Price is equal to or exceeds the Autocall Redemption Price on an Observation Date (other than the first, second, third, fourth, fifth and last Observation Dates)
- investors who are prepared to take the risk that regular Interest Payments will not be made on the Securities
- investors who understand that the potential return on the Securities is limited; the maximum return on the Securities is equal to \$33.75 per Security

**Book-entry Only Securities:** 

The Securities will be OTC Securities (defined in the program supplement) and will be issued through the book-entry-only system through CDS (defined in the program supplement). See "Description of the Securities – Global Securities" and "– Legal Ownership" in the program supplement and "Book-Entry-Only Securities" in the base shelf prospectus.

Listing:

The Securities will not be listed on any stock exchange. See "Risk Factors" in the product supplement.

**Secondary Market:** 

RBC DS has indicated to the Bank that it intends to use its best reasonable efforts to establish and maintain an over-the-counter market for the Securities by making itself available as a purchaser of the Securities if and so long as RBC DS in its sole discretion believes that there is a reasonable likelihood that it will be able to sell such Securities at a profit or at no more than a nominal loss. RBC DS may, in its sole discretion, cease to offer to purchase Securities without any requirement to provide notice to holders of Securities, registered or beneficial, including in circumstances where RBC DS perceives that the supply of Securities exceeds demand or if any change occurs in conditions imposed by regulatory or legislative action such that RBC DS determines

that it can no longer lawfully purchase or sell Securities without incurring unreasonable expenses or complying with onerous conditions. If RBC DS offers to purchase Securities in connection with a secondary market transaction, there is no assurance that the purchase price will be the highest possible price available in any secondary market for the Securities. See "Risk Factors – The Initial Estimated Value of the Securities Is Less than the Price to the Public and May not Reflect the Secondary Market Price, if any, of the Securities" above.

Information regarding the Closing Price, the Autocall Redemption Price, the Coupon Barrier Price, the Protection Barrier Price and the daily closing price for the Securities may be accessed at www.rbcnotes.com. There is no assurance that a secondary market for the Securities will develop or be sustained. See "Secondary Market for Securities" in the program supplement.

RBC DS. See "Description of the Securities – Fiscal Agency, Calculation Agency and Fundserv Depository Agreement" in the program supplement.

RBC DS. See "Description of the Securities – Calculation Agent" in the program supplement and "Risk Factors" in the product supplement.

An initial purchaser of Securities who acquires Securities from the Bank on the Issue Date and who, at all relevant times, for purposes of the *Income Tax Act* (Canada), is an individual (other than a trust), is a resident of Canada, deals at arm's length with and is not affiliated with the Bank, and acquires and holds the Securities as capital property will be required to include in computing income all interest received or receivable on the Securities, as well as certain accrued interest thereon on a disposition thereof. If, on maturity or other disposition (including on early redemption or repayment in full by the Bank), such a holder receives an amount that is less than the adjusted cost base of the Securities, such holder will realize a capital loss equal to the shortfall. See "Certain Canadian Tax Considerations" in Appendix C. **Potential purchasers of Securities should consult with their own tax advisors having regard to their particular circumstances.**

# APPENDIX A SUMMARY INFORMATION REGARDING THE ETF

# iShares® S&P/TSX Capped Energy Index ETF

ETF	iShares® S&P/TSX Capped Energy Index ETF				
Tracked Index	S&P/TSX Capped Energy Index				
Adviser	BlackRock Asset Management Canada Limited				
Country	Canada				
Current Exchange	TSX				
Closing Price of Underlying Securities (June 15, 2023)	\$14.62				

We have derived all information contained in this pricing supplement regarding the ETF from publicly available information. We make no representations or warranty as to the accuracy or completeness of the information derived from these public sources. Such information reflects the policies of, and is subject to change by the Adviser. The ETF is an exchange-traded fund managed by the Adviser and established as a trust under the laws of Canada whose units trade on the Toronto Stock Exchange under the ticker symbol "XEG". The Adviser is a registered investment company that is the investment adviser of numerous separate exchange-traded funds, including the ETF. Information provided to or filed with the securities regulators by the Adviser pursuant to securities legislation can be located at www.sedar.com. In addition, information about the Adviser and the ETF may be obtained from other sources including, but not limited to, press releases, newspaper articles and other publicly disseminated documents and the Adviser's website at www.blackrock.com. We make no representation or warranty as to the accuracy or completeness of such information.

# **Investment Objective and Strategy**

The ETF seeks to provide long-term capital growth by replicating, to the extent possible, the performance of the Tracked Index, net of expenses. Under normal market conditions, the ETF will primarily invest in equity securities issued by Canadian issuers participating in the energy sector. The ETF uses an indexing strategy to achieve its investment objective. Under this strategy, the ETF seeks to replicate the performance of the Tracked Index, net of expenses, by employing, directly or indirectly, through investment in one or more iShares ETFs and/or through the use of derivatives, a replicating strategy or sampling strategy. A replicating strategy is an investment strategy intended to replicate the performance of the Tracked Index by investing, directly or indirectly, primarily in a portfolio of index securities in substantially the same proportions as they are represented in the Tracked Index. A sampling strategy is an investment strategy intended to replicate the performance of the Tracked Index by investing, directly or indirectly, primarily in a representative portfolio of securities that has an aggregate investment profile similar to the Tracked Index. The securities selected are expected to have, in the aggregate, investment characteristics, fundamental characteristics and liquidity measures similar to those of the Tracked Index, as more fully described in the ETF's prospectus. The ETF's current principal investment strategy is to employ a replicating strategy.

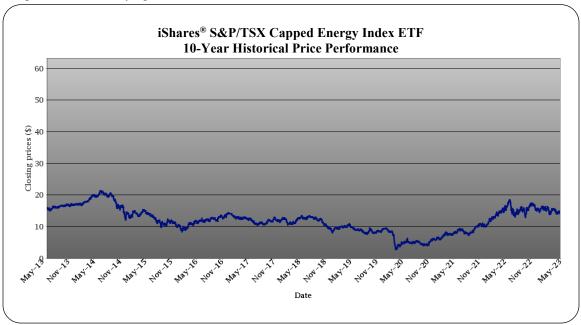

#### **S&P/TSX Capped Energy Index Constituents**

The Tracked Index is comprised of constituents of the S&P/TSX Composite Index that are assigned to the following GICS Sector: Energy (10) and which are not assigned to any of the following GICS Sub Industries: oil & gas refining & marketing (10102030), oil & gas storage & transportation (10102040) and coal & consumable fuels (10102050). Individual constituents are capped at 25% weight.

Further information about the Tracked Index and its constituent issuers is available from Standard and Poor's on its website at www.spglobal.com/spdji and information from this website is not incorporated by reference into this pricing supplement.

#### **Historical Price Performance**

The following chart sets forth the historical price performance of the units of the iShares® S&P/TSX Capped Energy Index ETF for the period from May 31, 2013 to May 31, 2023. Historical price performance does not take into account distributions or dividends paid on the Underlying Securities.

Historical price performance of the units of iShares® S&P/TSX Capped Energy Index ETF will not necessarily predict future price performance of the units of iShares® S&P/TSX Capped Energy Index ETF or the Securities. The source of the data displayed in this chart is Bloomberg L.P. and its accuracy cannot be guaranteed.

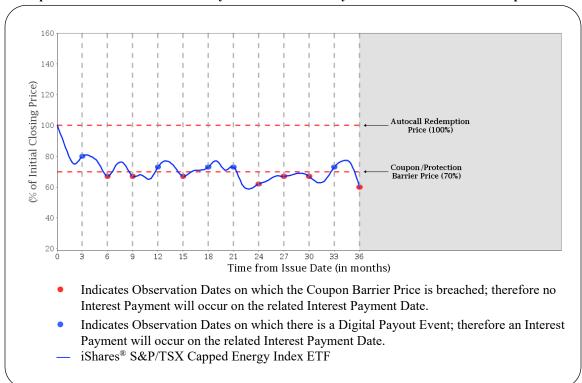

Historical annual percentage change of the units of iShares® S&P/TSX Capped Energy Index ETF											
Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	
Percentage change (%)	9.93	-18.24	-26.94	36.78	-12.48	-28.28	6.08	-37.12	80.24	47.92

#### APPENDIX B

## Sample Calculations of Final Redemption Amount or Autocall Redemption Amount and Interest Payments

The examples set out below are included for illustration purposes only. The price performance of the Underlying Securities used to illustrate the calculation of the Final Redemption Amount or Autocall Redemption Amount and the Interest Payments over the term of the Securities is not an estimate or forecast of the price performance of the Underlying Securities or the Securities. All examples assume that a holder of the Securities has purchased Securities with an aggregate Principal Amount of \$100 and that no Extraordinary Event has occurred. All examples assume a Coupon Barrier Price of 70.00% of the Initial Closing Price, a Protection Barrier Price of 70.00% of the Initial Closing Price and an Autocall Redemption Price of 100.00% of the Initial Closing Price. For convenience, each vertical line in the charts below represents both a hypothetical Observation Date and the next succeeding Interest Payment Date. Certain dollar amounts are rounded to the nearest whole cent.

Example #1 — Loss Scenario with Payment on the Maturity Date at Less Than the Principal Amount

In this scenario, there is no Observation Date on which the Closing Price is at or above the Autocall Redemption Price and, accordingly, the Securities would not be redeemed before the Maturity Date. On the Final Valuation Date, the Final Closing Price is below the Protection Barrier Price.

#### (i) Interest Payments

In this example, there is a Digital Payout Event on 5 of the 12 Observation Dates. On the other 7 Observation Dates, no Digital Payout Event would occur because the Closing Price is below the Coupon Barrier Price. Therefore, the Interest Payment of \$2.8125 per Interest Period would be payable for 5 Interest Periods on the applicable Interest Payment Date, for total Interest Payments of:

Principal Amount of Securities 
$$\times$$
 2.8125% per Interest Period  $\times$  5 Interest Periods  $\$100 \times 2.8125\% \times 5 = \$14.06$ 

#### (ii) Final Redemption Amount

In this example, the Initial Closing Price  $(X_i)$  is \$14.62 and the Final Closing Price  $(X_f)$  is \$8.77. Therefore, the Final Redemption Amount is as follows:

$$100 \times (X_f / X_i)$$
  
 $100 \times (88.77 / 14.62) = 59.99$   
 $15$ 

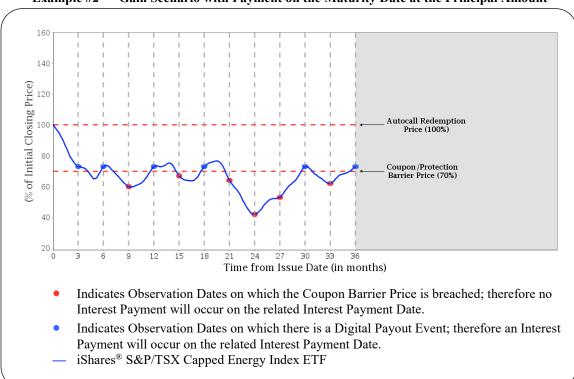

Therefore, the total amounts payable per Security from the Issue Date to the Maturity Date are:

(a) Total Interest Payments: \$14.06(b) Final Redemption Amount: \$59.99

(c) Total amount paid over the term of the Securities: \$74.05

The equivalent annually compounded rate of return in this example is -9.53%.

Example #2 — Gain Scenario with Payment on the Maturity Date at the Principal Amount

In this scenario, there is no Observation Date on which the Closing Price is at or above the Autocall Redemption Price and, accordingly, the Securities would not be redeemed before the Maturity Date. On the Final Valuation Date, the Final Closing Price is at or above the Protection Barrier Price.

#### (i) Interest Payments

In this example, there is a Digital Payout Event on 6 of the 12 Observation Dates. On the other 6 Observation Dates, no Digital Payout Event would occur because the Closing Price is below the Coupon Barrier Price. Therefore, the Interest Payment of \$2.8125 per Interest Period would be payable for 6 Interest Periods on the applicable Interest Payment Date for total Interest Payments of:

Principal Amount of Securities 
$$\times$$
 2.8125% per Interest Period  $\times$  6 Interest Periods  $\$100 \times 2.8125\% \times 6 = \$16.88$ 

# (ii) Final Redemption Amount

In this example, since the Final Closing Price is \$10.67, which is above the Protection Barrier Price of 70.00% of the Initial Closing Price of \$14.62, being \$10.23, the Final Redemption Amount per Security is equal to \$100.00.

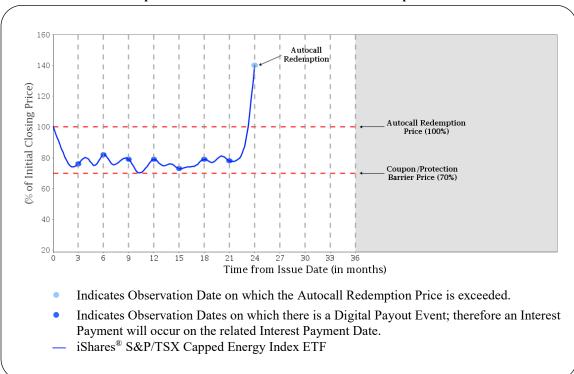

Therefore, the total amounts payable per Security from the Issue Date to the Maturity Date are:

(a) Total Interest Payments: \$16.88

(b) Final Redemption Amount: \$100.00

(c) Total amount paid over the term of the Securities: \$116.88

The equivalent annually compounded rate of return in this example is 5.34%.

Example #3 — Gain Scenario with Autocall Redemption Event

In this scenario, the Closing Price is at or above the Autocall Redemption Price on the Observation Date that falls 24 months into the term of the Securities. This would constitute an Autocall Redemption Event and, on the next succeeding Interest Payment Date, the Bank would redeem the Securities.

#### (i) Interest Payments

In this example, there is a Digital Payout Event on each of the 8 Observation Dates prior to the redemption of the Securities because the Closing Price is at or above the Coupon Barrier Price on each such date. Therefore, the Interest Payment of \$2.8125 per Interest Period would be payable for each Interest Period on the applicable Interest Payment Date (including on the Autocall Redemption Date), for total Interest Payments of:

Principal Amount of Securities  $\times$  2.8125% per Interest Period  $\times$  8 Interest Periods  $\$100 \times 2.8125\% \times 8 = \$22.50$ 

#### (ii) Autocall Redemption Amount

The Autocall Redemption Amount per Security is equal to \$100.00.

Therefore, the total amounts payable per Security from the Issue Date to the Autocall Redemption Date are:

- (a) Total Interest Payments: \$22.50
- (b) Autocall Redemption Amount: \$100.00
- (c) Total amount paid over the term of the Securities: \$122.50

The equivalent annually compounded rate of return in this example is 10.68%.

#### APPENDIX C

#### **Certain Canadian Tax Considerations**

In the opinion of the Bank's counsel, Davies Ward Phillips & Vineberg LLP, the following summary fairly describes the principal Canadian federal income tax considerations under the *Income Tax Act* (Canada) (the "Tax Act") generally applicable to an initial purchaser of Securities under this pricing supplement who, at all relevant times, for purposes of the Tax Act, deals at arm's length with and is not affiliated with the Bank (a "Holder").

This summary is based upon the current provisions of the Tax Act and the regulations thereunder (the "Regulations"), all specific proposals to amend the Tax Act or such Regulations publicly announced by the federal Minister of Finance prior to the date hereof (the "Proposals") and counsel's understanding of the current administrative and assessing policies and practices of the Canada Revenue Agency ("CRA"). Except for the Proposals, this summary does not take into account or anticipate any changes (including retroactive changes) in the law or the administrative and assessing policies or practices of the CRA, whether by judicial, regulatory, governmental or legislative action, nor does it take into account tax laws of any province or territory of Canada, or of any jurisdiction outside Canada. Provisions of provincial income tax legislation vary from province to province in Canada and may differ from federal income tax legislation. No assurance can be given that the Proposals will be implemented in their current form, or at all. This summary assumes that the Holder will neither undertake nor arrange a transaction in respect of the Securities primarily for the purpose of obtaining a tax benefit, has not entered into a "derivative forward agreement" (as defined in the Tax Act) in respect of the Securities and that the Securities are not issued at a discount.

This summary is of a general nature only and is not intended to constitute, nor should it be relied upon or construed as, tax advice to any particular Holder, nor is it exhaustive of all possible Canadian federal income tax considerations. Holders should consult their own tax advisors as to the potential consequences to them of the acquisition, ownership and disposition of Securities having regard to their particular circumstances.

#### **Holders Resident in Canada**

The following discussion applies to a Holder who, at all relevant times, for the purposes of the Tax Act and any applicable income tax treaty or convention, is an individual (other than a trust) who is resident (or deemed to be resident) in Canada and who acquires and holds the Securities as capital property (a "Resident Holder"). Certain Resident Holders who might not otherwise be considered to hold their Securities as capital property may, in certain circumstances, be entitled to have their Securities, and all other "Canadian securities" (as defined in the Tax Act) owned by such Resident Holders in the taxation year and all subsequent taxation years, treated as capital property by making the irrevocable election permitted by subsection 39(4) of the Tax Act.

#### Interest

The amount of any interest received or receivable (depending on the method regularly followed in computing income under the Tax Act) by a Resident Holder in a taxation year (including on redemption or repayment in full by the Bank) will be required to be included in computing the Resident Holder's income for the taxation year, except to the extent that such amount has already been included in the Resident Holder's income for that or a preceding taxation year.

#### Disposition of Securities

On a disposition or deemed disposition of a Security by a Resident Holder to a person (other than the Bank), the amount of any interest accrued on the Security to the time of disposition will be required to be included in computing the Resident Holder's income for the taxation year in which the disposition takes place (except to the extent that such accrued interest has already been included in the Resident Holder's income for that or a preceding taxation year) and will be excluded from the proceeds of disposition of the Security. Because the interest entitlement of a Resident Holder for a particular Interest Period will generally only be determinable on the Observation Date for that period, whether any accrued interest will be payable on a Security at the time of disposition may, in some circumstances, be considered uncertain.

In addition, the Resident Holder should realize a capital gain (or capital loss) to the extent that the proceeds of disposition, net of amounts included in income as interest and any reasonable costs of disposition, exceed (or are exceeded by) the adjusted cost base of the Security to the Resident Holder. One-half of any capital gain realized by a Resident Holder must be included in the income of the Resident Holder. One-half of any capital loss realized by a Resident Holder is deductible against the taxable portion of capital gains realized in the year, in the three preceding years or in subsequent years, subject to the rules and restrictions contained in the Tax Act. Capital gains realized by an individual may give rise to a liability for alternative minimum tax.

# Redemption or Repayment by the Bank

A Resident Holder who holds the Securities until maturity (or earlier redemption or repayment in full by the Bank) and who receives redemption or repayment proceeds that are less than the Principal Amount of the Securities will realize a capital loss to the extent that the amount received at such time (otherwise than on account of interest) is less than the Resident Holder's adjusted cost base of such Securities. The income tax considerations associated with the realization of a capital loss are described above.

#### **Holders Not Resident in Canada**

The following discussion applies to a Holder who, at all relevant times, for the purposes of the Tax Act is neither resident nor deemed to be resident in Canada, deals at arm's length with any Canadian resident (or deemed Canadian resident) to whom the Holder disposes of the Securities, is neither a "specified shareholder" of the Bank nor a person who does not deal at arm's length with a specified shareholder of the Bank for purposes of the "thin capitalization" rule contained in subsection 18(4) of the Tax Act, does not use or hold and is not deemed to use or hold the Securities in the course of carrying on a business in Canada and is not an insurer carrying on an insurance business in Canada and elsewhere (a "Non-Resident Holder").

Interest paid or credited or deemed to be paid or credited on the Securities (including any interest deemed to be paid in certain cases involving the assignment or other transfer of a Security to a resident or deemed resident of Canada) to a Non-Resident Holder will not be subject to Canadian non-resident withholding tax unless any portion of such interest is contingent or dependent on the use of or production from property in Canada or is computed by reference to revenue, profit, cash flow, commodity price or any other similar criterion or by reference to dividends paid or payable to shareholders of any class of shares of the capital stock of a corporation ("Participating Debt Interest"). Having regard to the terms of the Securities, interest paid or credited or deemed to be paid or credited on the Securities should not be considered to be Participating Debt Interest.

There should be no other taxes on income (including taxable capital gains) payable by a Non-Resident Holder in respect of a Security.

#### **Eligibility for Investment**

The Securities, if issued on the date of this pricing supplement, would be qualified investments (for purposes of the Tax Act) for trusts governed by registered retirement savings plans ("RRSPs"), registered retirement income funds ("RRIFs"), tax-free savings accounts ("TFSAs"), registered disability savings plans ("RDSPs"), first home savings accounts ("FHSAs"), registered education savings plans ("RESPs") and deferred profit sharing plans ("DPSPs"), each within the meaning of the Tax Act (other than a DPSP to which payments are made by the Bank or a corporation or partnership with which the Bank does not deal at arm's length within the meaning of the Tax Act).

Notwithstanding the foregoing, if Securities are "prohibited investments" (as that term is defined in the Tax Act) for an RRSP, RRIF, TFSA, RDSP, FHSA or RESP, the annuitant of the RRSP or RRIF, the holder of the TFSA, RDSP or FHSA, or the subscriber of the RESP, as the case may be (each a "Plan Holder"), will be subject to a penalty tax as set out in the Tax Act. Securities will be prohibited investments for an RRSP, RRIF, TFSA, RDSP, FHSA or RESP of a Plan Holder who has a "significant interest" (as defined in the Tax Act for purposes of the prohibited investment rules) in the Bank or who does not deal at arm's length, within the meaning of the Tax Act, with the Bank. Investors should consult their own tax advisors in this regard.
