KEY TERMS

Issuer:	Royal Bank of Canada
Issuer Credit Ratings:	Moody's: Aa1; S&P: AA-; DBRS: AA
Currency:	USD
Minimum Investment:	50 Securities or US\$5,000
Term:	Approximately 5.0 years
Principal at Risk:	The Securities are not principal protected.
Underlying Index:	The return on the Securities is linked to the adjusted returns of the Solactive Equal Weight US Major Bank Select AR Index (the " Underlying Index "). The Underlying Index is an adjusted return index that aims to track the gross total return performance of the Solactive Equal Weight US Major Bank Select GTR Index (the " Target Index "), subject to a reduction of a synthetic dividend of 37.5 index points per annum calculated daily in arrears (the " Adjusted Return Factor "). For the avoidance of doubt, the return on the Securities is linked to the Underlying Index and is not linked to the Target Index. The Closing Level on July 11, 2023 was 1,131.27. The Adjusted Return Factor divided by the Closing Level was therefore equal to 3.3149% on July 11, 2023. If an Autocall Redemption Event does not occur, over the term of the Securities the sum of the Adjusted Return Factor will be approximately 187.5 index points, representing 16.5743% of the Closing Level on July 11, 2023. For the calculation of the level of the Target Index, any dividends or other distributions paid on the constituent securities of the Target Index are assumed to be reinvested across all of the constituent securities of the Target Index. As of July 11, 2023, the annual dividend yield on the Target Index was 3.2665%, representing an aggregate dividend yield of approximately 17.435% compounded annually over the term of the Securities, on the assumption that the dividend yield remains constant. Securities do not represent an interest in the Underlying Index, the Target Index or in the securities of the entities that comprise the Target Index, and holders will have no right or entitlement to such securities including, without limitation, redemption rights (if any), voting rights or rights to receive dividends or other distributions paid on such securities.
Issue Date:	August 14, 2023
Initial Index Level:	The " Initial Index Level " is the Closing Level on August 8, 2023.
Protection Barrier Level:	The " Protection Barrier Level " is 70.00% of the Initial Index Level.

A final base shelf prospectus containing important information relating to the securities described in this document has been filed with the securities regulatory authorities in each of the provinces and territories of Canada. A copy of the final base shelf prospectus, any amendment to the final base shelf prospectus and any applicable shelf prospectus supplement that has been filed, is required to be delivered with this document. This document does not provide full disclosure of all material facts relating to the securities offered. Investors should read the final base shelf prospectus, any amendment and any applicable shelf prospectus supplement for disclosure of those facts, especially risk factors relating to the securities offered, before making an investment decision.

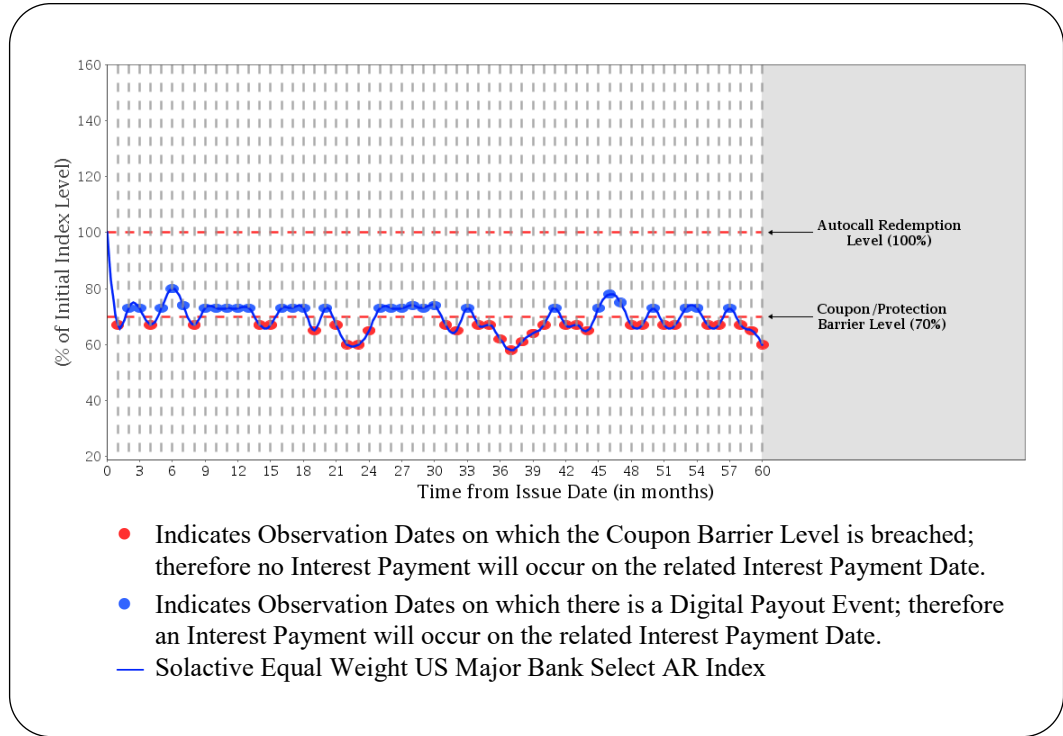

KEY TERMS CONTINUED

Coupon Barrier Level:	The “ Coupon Barrier Level ” is 70.00% of the Initial Index Level.
Final Index Level:	The “ Final Index Level ” is the Closing Level on August 8, 2028 (the “ Final Valuation Date ”).
Closing Level:	The “ Closing Level ” on any date is the official closing level of the Underlying Index quoted on www.solactive.com for such date, as determined by the Calculation Agent.
Maturity Date:	August 11, 2028
Observation Dates:	An “ Observation Date ” for the purposes of determining the amount of any Interest Payment will occur monthly, from and including September 8, 2023 and on the 8 th day of each month thereafter, to and including August 8, 2028, in each year that the Securities are outstanding and provided that the Securities are not redeemed by the Bank as described below. If any such Observation Date is not an Exchange Day, such Observation Date will be on the first following day that is an Exchange Day.
Interest Payment Dates:	The “ Interest Payment Date ” for an Interest Payment, if any, will occur monthly, on the third Business Day following the corresponding Observation Date for each such month, in each year that the Securities are outstanding and provided that the Securities are not redeemed by the Bank as described below. The final Interest Payment, if any, will be made on the earlier of the Autocall Redemption Date (if applicable) and the Maturity Date.
Business Day:	A “ Business Day ” is any day which is not a Saturday, Sunday or a day on which banking institutions are authorized or required by law or regulation to be closed in either the city of Toronto, Ontario or the city of New York, New York.
Interest Payments:	<p>Interest payments (the “Interest Payments” and each, an “Interest Payment”), if any, on the Securities will be payable on each Interest Payment Date, in arrears, at a fixed interest rate of 1.000% monthly ending on an Interest Payment Date (an “Interest Period”) for each Interest Period in which a Digital Payout Event occurs on the Observation Date occurring in the Interest Period. On the basis of the foregoing, the interest on each US\$100 Principal Amount of Securities for an Interest Period in which a Digital Payout Event has occurred would equal $US\\$100 \times 1.000\%$.</p> <p>Thus, if a Digital Payout Event occurs:</p> <ul style="list-style-type: none"> (a) on each Observation Date in any twelve-month period, the amount of interest payable on each US\$100 Principal Amount of Securities for that twelve-month period will be US\$12.00; (b) on eleven out of the twelve Observation Dates in any twelve-month period, the amount of interest payable on each US\$100 Principal Amount of Securities for that twelve-month period will be US\$11.00; (c) on ten out of the twelve Observation Dates in any twelve-month period, the amount of interest payable on each US\$100 Principal Amount of Securities for that twelve-month period will be US\$10.00; (d) on nine out of the twelve Observation Dates in any twelve-month period, the amount of interest payable on each US\$100 Principal Amount of Securities for that twelve-month period will be US\$9.00; (e) on eight out of the twelve Observation Dates in any twelve-month period, the amount of interest payable on each US\$100 Principal Amount of Securities for that twelve-month period will be US\$8.00; (f) on seven out of the twelve Observation Dates in any twelve-month period, the amount of interest payable on each US\$100 Principal Amount of Securities for that twelve-month period will be US\$7.00; (g) on six out of the twelve Observation Dates in any twelve-month period, the amount of interest payable on each US\$100 Principal Amount of Securities for that twelve-month period will be US\$6.00; (h) on five out of the twelve Observation Dates in any twelve-month period, the amount of interest payable on each US\$100 Principal Amount of Securities for that twelve-month period will be US\$5.00; (i) on four out of the twelve Observation Dates in any twelve-month period, the amount of interest payable on each US\$100 Principal Amount of Securities for that twelve-month period will be US\$4.00; (j) on three out of the twelve Observation Dates in any twelve-month period, the amount of interest payable on each US\$100 Principal Amount of Securities for that twelve-month period will be US\$3.00; (k) on two out of the twelve Observation Dates in any twelve-month period, the amount of interest payable on each US\$100 Principal Amount of Securities for that twelve-month period will be US\$2.00; and (l) on one out of the twelve Observation Dates in any twelve-month period, the amount of interest payable on each US\$100 Principal Amount of Securities for that twelve-month period will be US\$1.00. <p>If a Digital Payout Event does not occur on the Observation Date during a particular Interest Period, no interest will be payable on the Securities for such Interest Period.</p>
Digital Payout Event:	A “ Digital Payout Event ” will occur if, on the relevant Observation Date, the Closing Level is greater than or equal to the Coupon Barrier Level.
Autocall Redemption Event:	An “ Autocall Redemption Event ” will occur if the Closing Level on an Autocall Observation Date is greater than or equal to 100.00% of the Initial Index Level (the “ Autocall Redemption Level ”). Following the occurrence of an Autocall Redemption Event, the Securities will be redeemed for an amount equal to the

Principal Amount thereof (the “**Autocall Redemption Amount**”) on the Autocall Redemption Date. In addition to the Autocall Redemption Amount, an Interest Payment will be paid on the Autocall Redemption Date.

Autocall Observation Dates:	<p>An “Autocall Observation Date” for the purposes of determining an Autocall Redemption Event will occur quarterly on the Observation Dates specified below in each year that the Securities are outstanding, from and including August 8, 2024 to and including May 8, 2028. If any such Autocall Observation Date is not an Exchange Day, such Autocall Observation Date will be on the first following day that is an Exchange Day.</p> <p>Provided that the Securities are not redeemed by the Bank, the Bank intends the Autocall Observation Dates to be:</p> <table> <tr> <td>August 8, 2024</td><td>November 8, 2024</td></tr> <tr> <td>February 10, 2025</td><td>May 8, 2025</td></tr> <tr> <td>August 8, 2025</td><td>November 10, 2025</td></tr> <tr> <td>February 9, 2026</td><td>May 8, 2026</td></tr> <tr> <td>August 10, 2026</td><td>November 9, 2026</td></tr> <tr> <td>February 8, 2027</td><td>May 10, 2027</td></tr> <tr> <td>August 9, 2027</td><td>November 8, 2027</td></tr> <tr> <td>February 8, 2028</td><td>May 8, 2028</td></tr> </table>	August 8, 2024	November 8, 2024	February 10, 2025	May 8, 2025	August 8, 2025	November 10, 2025	February 9, 2026	May 8, 2026	August 10, 2026	November 9, 2026	February 8, 2027	May 10, 2027	August 9, 2027	November 8, 2027	February 8, 2028	May 8, 2028

August 13, 2026	November 13, 2026																
February 11, 2027	May 13, 2027																
August 12, 2027	November 12, 2027																
February 11, 2028	May 11, 2028																
Payment at Maturity:	<p>On the Maturity Date, if the Securities have not been previously redeemed, the amount payable (the “Final Redemption Amount”) for each US\$100 Principal Amount per Security will be equal to:</p> <p>(a) if the Final Index Level is greater than or equal to the Protection Barrier Level, US\$100; or</p> <p>(b) if the Final Index Level is less than the Protection Barrier Level, an amount equal to the Index Return, but in any event not less than US\$1.00.</p> <p>In addition to the Final Redemption Amount, an Interest Payment will be paid on the Maturity Date if a Digital Payout Event occurs on the Final Valuation Date.</p>																
Index Return:	<p>“Index Return” means $US\\$100 \times (X_f / X_i)$, where: “X_f” means the Final Index Level, and “X_i” means the Initial Index Level.</p>																
Secondary Market:	<p>Fundserv, RBC10141</p> <p>Generally, to be effective on a Business Day, a redemption request will need to be initiated by 2:00 p.m. (Toronto time) on that Business Day (or such other time as may be established by Fundserv). Any request received after such time will be deemed to be a request sent and received on the next following Business Day.</p>																
Sample Calculations of Final Redemption Amount or Autocall Redemption Amount and Interest Payments:	<p>The examples set out below are included for illustration purposes only. The performance of the Underlying Index used to illustrate the calculation of the Final Redemption Amount or Autocall Redemption Amount and the Interest Payments over the term of the Securities is not an estimate or forecast of the performance of the Underlying Index or the Securities. All examples assume that a holder of the Securities has purchased Securities with an aggregate Principal Amount of US\$100 and that no Extraordinary Event has occurred. All examples assume a Coupon Barrier Level of 70.00% of the Initial Index Level, a Protection Barrier Level of 70.00% of the Initial Index Level and an Autocall Redemption Level of 100.00% of the Initial Index Level. For convenience, each vertical line in the charts below represents both a hypothetical Observation Date and the next succeeding Interest Payment Date. Certain dollar amounts are rounded to the nearest whole cent.</p>																

Example #1: Loss Scenario with Payment on the Maturity Date at Less Than the Principal Amount

In this scenario, there is no Autocall Observation Date on which the Closing Level is at or above the Autocall Redemption Level and, accordingly, the Securities would not be redeemed before the Maturity Date. On the Final Valuation Date, the Final Index Level is below the Protection Barrier Level.

(i) Interest Payments

In this example, there is a Digital Payout Event on 29 of the 60 Observation Dates. On the other 31 Observation Dates, no Digital Payout Event would occur because the Closing Level is below the Coupon Barrier Level. Therefore, the Interest Payment of US\$1.00 per Interest Period would be payable for 29 Interest Periods on the applicable Interest Payment Date, for total Interest Payments of:

$$\text{Principal Amount of Securities} \times 1.000\% \text{ per Interest Period} \times 29 \text{ Interest Periods} \\ \text{US\$100} \times 1.000\% \times 29 = \text{US\$29.00}$$

(ii) Final Redemption Amount

In this example, the Initial Index Level (X_i) is 1,131.27 and the Final Index Level (X_f) is 678.76. Therefore, the Final Redemption Amount is as follows:

$$\text{US\$100} \times (X_f / X_i) \\ \text{US\$100} \times (678.76 / 1,131.27) = \text{US\$60.00}$$

Therefore, the total amounts payable per Security from the Issue Date to the Maturity Date are:

(a) Total Interest Payments: US\$29.00

(b) Final Redemption Amount: US\$60.00

(c) Total amount paid over the term of the Securities: US\$89.00

The equivalent annually compounded rate of return in this example is -2.30%.

Example #2: Gain Scenario with Payment on the Maturity Date at the Principal Amount

- Indicates Observation Dates on which the Coupon Barrier Level is breached; therefore no Interest Payment will occur on the related Interest Payment Date.
- Indicates Observation Dates on which there is a Digital Payout Event; therefore an Interest Payment will occur on the related Interest Payment Date.
- Solactive Equal Weight US Major Bank Select AR Index

In this scenario, there is no Autocall Observation Date on which the Closing Level is at or above the Autocall Redemption Level and, accordingly, the Securities would not be redeemed before the Maturity Date. On the Final Valuation Date, the Final Index Level is at or above the Protection Barrier Level.

(i) Interest Payments

In this example, there is a Digital Payout Event on 30 of the 60 Observation Dates. On the other 30 Observation Dates, no Digital Payout Event would occur because the Closing Level is below the Coupon Barrier Level. Therefore, the Interest Payment of US\$1.00 per Interest Period would be payable for 30 Interest Periods on the applicable Interest Payment Date for total Interest Payments of:

$$\text{Principal Amount of Securities} \times 1.000\% \text{ per Interest Period} \times 30 \text{ Interest Periods}$$

$$\text{US\$}100 \times 1.000\% \times 30 = \text{US\$}30.00$$

(ii) Final Redemption Amount

In this example, since the Final Index Level is 825.83, which is above the Protection Barrier Level of 70.00% of the Initial Index Level of 1,131.27, being 791.89, the Final Redemption Amount per Security is equal to US\$100.00.

Therefore, the total amounts payable per Security from the Issue Date to the Maturity Date are:

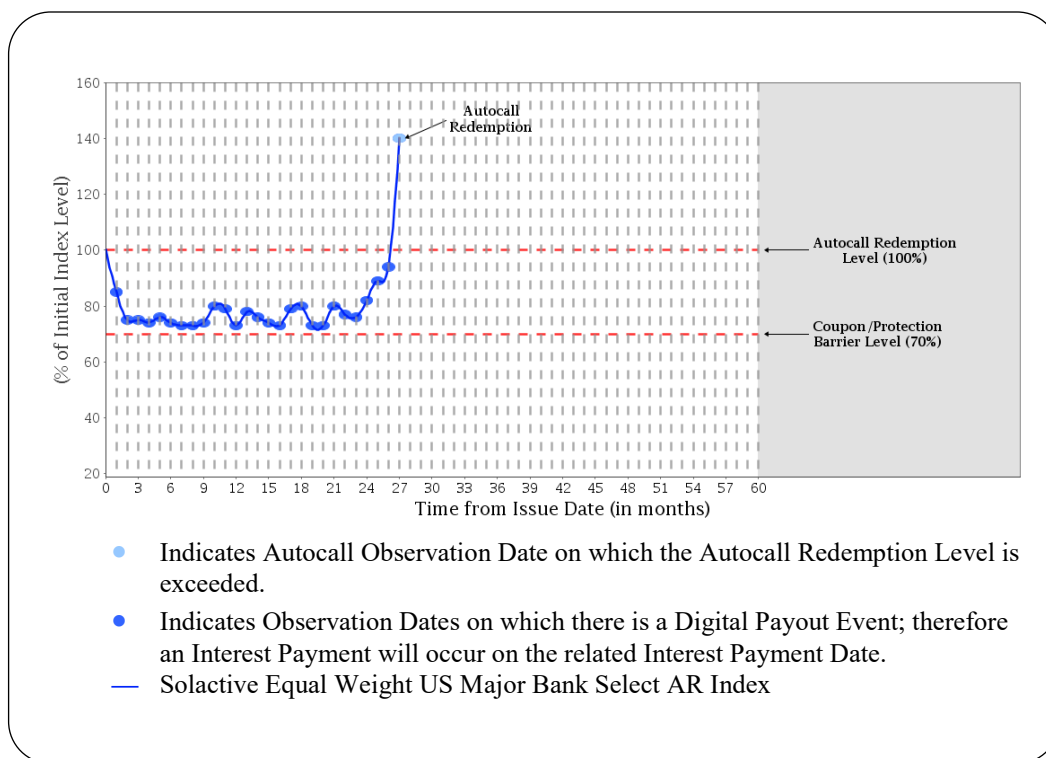

(a) Total Interest Payments: US\$30.00

(b) Final Redemption Amount: US\$100.00

(c) Total amount paid over the term of the Securities: US\$130.00

The equivalent annually compounded rate of return in this example is 5.39%.

Example #3: Gain Scenario with Autocall Redemption Event

In this scenario, the Closing Level is at or above the Autocall Redemption Level on the Autocall Observation Date that falls 27 months into the term of the Securities. This would constitute an Autocall Redemption Event and, on the next succeeding Interest Payment Date, the Bank would redeem the Securities.

(i) Interest Payments

In this example, there is a Digital Payout Event on each of the 27 Observation Dates prior to the redemption of the Securities because the Closing Level is at or above the Coupon Barrier Level on each such date. Therefore, the Interest Payment of US\$1.00 per Interest Period would be payable for each Interest Period on the applicable Interest Payment Date (including on the Autocall Redemption Date), for total Interest Payments of:

$$\text{Principal Amount of Securities} \times 1.000\% \text{ per Interest Period} \times 27 \text{ Interest Periods} \\ \text{US\$100} \times 1.000\% \times 27 = \text{US\$27.00}$$

(ii) Autocall Redemption Amount

The Autocall Redemption Amount per Security is equal to US\$100.00.

Therefore, the total amounts payable per Security from the Issue Date to the Autocall Redemption Date are:

(a) Total Interest Payments: US\$27.00

(b) Autocall Redemption Amount: US\$100.00

(c) Total amount paid over the term of the Securities: US\$127.00

The equivalent annually compounded rate of return in this example is 11.21%.

Initial Estimated Value:	The initial estimated value of the Securities July 11, 2023 was US\$95.95 per Security, which is less than the price to the public and is not an indication of the actual profit to the Bank or its affiliates. The actual value of the Securities at any time will reflect many factors, cannot be predicted with accuracy, and may be less than this amount. The initial estimated value of the Securities is an estimate only and is based on the value of the Bank's obligation to make the payments on the Securities. We describe our determination of the initial estimated value in more detail in the Pricing Supplement.
--------------------------	--

The Solactive Equal Weight US Major Bank Select AR Index is owned, calculated, administered and published by Solactive AG ("Solactive"), and the name "Solactive" is a registered trademark of Solactive. The Solactive Equal Weight US Major Bank Select AR Index has been licensed for use by the Bank in connection with the Securities. The Securities are not sponsored, promoted, sold or supported in any other manner by Solactive and Solactive makes no representation or warranty, express or implied, regarding the advisability of investing in such product(s). Solactive does not guarantee the accuracy or completeness of the Solactive Equal Weight US Major Bank Select AR Index or the Solactive Equal Weight US Major Bank Select GTR Index, any data included therein, or any data from which it is derived, nor has any liability for any errors, omissions, or interruptions therein.

Clients should evaluate the financial, market, legal, regulatory, credit, tax and accounting risks and consequences of the proposal before entering into any transaction, or purchasing any instrument. Clients should evaluate such risks and consequences independently of Royal Bank of Canada and the Dealers, RBC Dominion Securities Inc. and Richardson Wealth Limited, respectively.

The Securities will not constitute deposits insured under the *Canada Deposit Insurance Corporation Act*. The Securities are not fixed income securities and are not designed to be alternatives to fixed income or money market instruments. The Securities are structured products that possess downside risk.

An investment in the Securities involves risks. The Securities are linked to the Underlying Index which reflects (i) the applicable price changes of the constituent securities of the Target Index and any dividends and distributions paid in respect of such securities, without deduction of any withholding tax or other amounts accruing thereon to which an investor holding the constituent securities of the Target Index would typically be exposed, less (ii) the Adjusted Return Factor. An investment in the Securities is not the same as a direct investment in the securities that comprise the Target Index and investors have no rights with respect to the securities underlying such index. The return on the Securities will not reflect the total return that an investor would receive if such investor owned the securities that comprise the Target Index. The Securities are considered to be "specified derivatives" under applicable Canadian securities laws. If you purchase Securities, you will be exposed to changes in the level of the Underlying Index and fluctuations in interest rates, among other factors. Index levels are volatile and an investment in the Securities may be considered to be speculative. Since the Securities are not principal protected and the Principal Amount will be at risk, you could lose substantially all of your investment.
